Malawista,Robert Winer,2018-05-11 What is it like to be a working psychoanalyst And what is it like to be held in the mind of one These were the questions that led Winer and Malawista to interview seventeen notable analysts from around the world Who s Behind the Couch The Heart and the Mind of the Psychoanalyst explores the analyst s mind at work not so much from a theoretical perspective but rather from the complexities and richness inherent in every moment to moment clinical encounter As analysts we are all continually challenged to find what might work best with a particular patient Yet we don t often hear senior analysts share their personal struggles feelings and sensibilities To understand the internal experience of analysts the authors posed questions such as What is it like for analysts to manage rough spots to lose ground and try to recapture it To feel appreciated and then to feel devalued To feel betrayed To feel responsibility for someone s life while working to maintain their own balance *Seattle Grade Teacher* ,1927 **Cosmopolitan** ,1922 **What's Next?** Robert Snyder,2018-04-24 The future of journalism isn t what it used to be As recently as the mid 1960s few would have predicted the shocks and transformations that have swept through the news business in the last three decades the deaths of many afternoon newspapers the emergence of television as people s primary news source and the quicksilver combinations of cable television VCRs and the Internet that have changed our ways of reading seeing and listening The essays in this volume seek to illuminate the future prospects of journalism Mindful that grandiose predictions of the world of tomorrow tend to be the fantasies and phobias of the present written large in the 1930s and 1940s magazines such as Scribner s Barron s and Collier s forecast that one day we would have an airplane in every garage the authors of What s Next have taken a more careful view The writers start with what they know the trends that they see in journalism today and ask where will they take us in the foreseeable future For some media such as newspapers the visible horizon is decades away For others particularly anything involving the Internet responsible forecasts can look ahead only for a matter of years Where the likely destinations of present trends are not entirely clear the authors have tried to pose the kinds of questions that they believe people will have to address in years to come While being mindful of the tremendous influence of technology one must remember that computers punditry or market share will not ordain the

future of journalism Rather it will be determined by the sum of countless actions taken by journalists and other media professionals These essays with their hopes and fears cautions and enthusiasms questions and answers are an effort to create the best possible future for journalism This volume will be of interest to media professionals academics and others with an interest in the future of journalism
