Why Architecture Matters Lessons From Chicago:

Why Architecture Matters Blair Kamin, 2001 This text collects the best of architecture critic Blair Kamin's columns Using Chicago as a barometer of national design trends the book sheds light on the state of American architecture during the Nervous Nineties

Terror and Wonder Blair Kamin, 2010-10-15 For more than twenty years now Blair Kamin of the Chicago Tribune has explored how architecture captures our imagination and engages our deepest emotions A winner of the Pulitzer Prize for criticism Kamin treats his subjects not only as works of art but also as symbols of the cultural and political forces that inspire them Terror and Wonder gathers the best of Kamin's writings from the past decade along with new reflections on an era framed by the destruction of the World Trade Center and the opening of the world's tallest skyscraper Assessing ordinary commercial structures as well as head turning designs by some of the world's leading architects Kamin paints a sweeping but finely textured portrait of a tumultuous age torn between the conflicting mandates of architectural spectacle and sustainability For Kamin the story of our built environment over the past ten years is in tangible ways the story of the decade itself Terror and Wonder considers how architecture has been central to the main events and crosscurrents in American life since 2001 the devastating and debilitating consequences of 9/11 and Hurricane Katrina the real estate boom and bust the use of over the top cultural designs as engines of civic renewal new challenges in saving old buildings the unlikely rise of energy saving green architecture and growing concern over our nation's crumbling infrastructure A prominent cast of players including Santiago Calatrava Frank Gehry Helmut Jahn Daniel Libeskind Barack Obama Renzo Piano and Donald Trump fills the pages of this eye opening look at the astounding and extraordinary ways that architecture mirrors our values and shapes our everyday lives

Who Is the City For? Blair Kamin, 2022-11-21 A vividly illustrated collaboration between two of Chicago's most celebrated architecture critics casts a wise and unsparing eye on inequities in the built environment and attempts to rectify them From his high profile battles with Donald Trump to his insightful celebrations of Frank Lloyd Wright and front page takedowns of Chicago mega projects like Lincoln Yards Pulitzer Prize winning architecture critic Blair Kamin has long informed and delighted readers with his illuminating commentary Kamin's newest collection Who Is the City For does more than gather fifty five of his most notable Chicago Tribune columns from the past decade it pairs his words with striking new images by photographer and architecture critic Lee Bey Kamin's former rival at the Chicago Sun Times Together they paint a revealing portrait of Chicago that reaches beyond its glamorous downtown and dramatic buildings by renowned architects like Jeanne Gang to its culturally diverse neighborhoods including modest structures associated with storied figures from the city's Black history such as Emmett Till At the book's heart is its expansive approach to a central concept in contemporary political and architectural discourse equity Kamin argues for a broad understanding of the term one that prioritizes both the shared spaces of the public realm and the urgent need to rebuild Black and brown neighborhoods devastated by decades of discrimination and disinvestment At best he writes in the

book's introduction the public realm can serve as an equalizing force a democratizing force It can spread life's pleasures and confer dignity irrespective of a person's race income creed or gender In doing so the public realm can promote the social contract the notion that we are more than our individual selves that our common humanity is made manifest in common ground Yet the reality in Chicago as *Who Is the City For* powerfully demonstrates often falls painfully short of that ideal

Why Architecture Matters Paul Goldberger, 2023-01-31 A classic work on the joy of experiencing architecture with a new afterword reflecting on architecture's place in the contemporary moment Architecture begins to matter writes Paul Goldberger when it brings delight and sadness and perplexity and awe along with a roof over our heads In *Why Architecture Matters* he shows us how that works in examples ranging from a small Cape Cod cottage to the vast flowing Prairie houses of Frank Lloyd Wright from the Lincoln Memorial to the Guggenheim Bilbao He eloquently describes the Church of Sant Ivo in Rome as a work that embraces the deepest complexities of human imagination In his afterword to this new edition Goldberger addresses the current climate in architectural history and takes a more nuanced look at projects such as Thomas Jefferson's academical village at the University of Virginia and figures including Philip Johnson whose controversial status has been the topic of much recent discourse He argues that the emotional impact of great architecture remains vital even as he welcomes the shift in the field to an increased emphasis on social justice and sustainability
