Open Talent John Winsor, Jin H. Paik, 2024-01-16 In the new world of hybrid work and AI one thing is clear the war for talent is over and talent won With sparsely populated offices and people working from wherever they are and with AI emerging everywhere in business and dominating headlines our work lives have undergone a remarkable transformation seemingly overnight But the reality is that for years the ever growing digital wave has been breaking down organizational boundaries and increasing the adoption of open innovation including the use of crowdsourcing platforms as a talent solution Now the imperative is clear adapt to and leverage this new digitally enabled world of open talent or get left behind In this eye opening essential guidebook John Winsor and Jin Paik with their work at the Laboratory for Innovation Science at Harvard show how the massive reset of the pandemic allowed talented workers everywhere to exit their jobs without leaving the workforce Now many are freelancing for multiple companies or are starting small businesses challenging hiring managers as never before amidst a transformed workforce What s more talent has more power than ever using platforms such as Freelancer com Fiverr and Upwork setting their own terms for work what where when and at what price How can companies adapt The key the authors argue is shifting to a more distributed idea and structure of collaborative work The authors call this a networked organization where talent is culled from both inside and outside the organization and viewed through a single lens as a global ecosystem that can be tapped as needed With rich stories keen insights and an abundance of practical advice Winsor and Paik provide a new framework and operating model for transforming your organization into a talent orchestrating problem solving machine
