The Cunning Turtle Kurt Wiese,1956-03-02 The Cunning Turtle ,1956 A picture story that tells why turtles have cracks in their shells Grades 1 2 **Cunning Turtle** ,1966 Cunning Turtle Kurt Wiese,1986-12-01 The Orientalist William Goonetilleke, **I Saw the Dog** Alexandra Aikhenvald,2021-04-08 Every language in the world shares a few common features we can ask a question say something belongs to us and tell someone what to do But beyond that our languages are richly and almost infinitely varied a French speaker can t conceive of a world that isn t split into un and une male and female while Estonians have only one word for both men and women tema In Dyirbal an Australian language things might be masculine feminine neuter or edible vegetable Every language tells us something about the people who use it In **I Saw the Dog** linguist Alexandra Aikhenvald takes us from the remote swamplands of Papua New Guinea to the university campuses of North America to illuminate the vital importance of names the value of being able to say exactly what you mean what language can tell us about what it means to be human and what we lose when they disappear forever **A Grammar of Tariana, from Northwest Amazonia** Aleksandra IꞑUꞑr'evna Aïkhenval'd,2003-08-07 This is a comprehensive reference grammar of Tariana an endangered Arawak language from a remote region in the northwest Amazonian jungle Its speakers traditionally marry someone speaking a different language and as a result most people are fluent in five or six languages Because of this rampant multilingualism Tariana combines a number of features inherited from the protolanguage with properties diffused from neighbouring but unrelated Tucanoan languages Typologically unusual features of the language include an array of classifiers independent of genders complex serial verbs case marking depending on the topicality of a noun and double marking of case and of number Tariana has obligatory evidentiality every sentence contains a special element indicating whether the information was seen heard or inferred by the speaker or whether the speaker acquired it from somebody else This grammar will be a valuable source book for linguists and others interested in natural languages
