*The Westminster Corridor* David Sullivan, 1994 This book describes the foundation and early history of Westminster Abbey and in particular its endowments of land some of which formed a corridor through Middlesex *US 36 Corridor Project, Denver, Colorado Metropolitan Area*, 2009 [The Grove Encyclopedia of Medieval Art and Architecture](#) Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture *Medieval Ecclesiastical Studies* Michael J. Franklin, 1995 Essays on English medieval ecclesiastical history focusing particularly on administration Dorothy Owen has made a major contribution over half a century to our knowledge of the history of the English church especially but not exclusively in the middle ages While her published work has focused largely on eastern England she has never lost sight of the wider universal context and is one of the leading scholars of medieval canon law This volume of essays on English medieval ecclesiastical history is presented to her as a tribute from friends colleagues and former pupils their contents range from the pre Conquest period to the eve of the Reformation but are all concerned with the practicalities of ecclesiastical administration and jurisdiction Contributors JOAN VARLEY DAVID CHAMBERS C N L BROOKE MARK BAILEY MARTIN BRETT M J FRANKLIN CHRISTOPHER HARPER BILL ROSALIND HILL RALPH HOULBROOKE BRIAN KEMP F DONALD LOGAN A K McHARDY SANDRA RABAN DAVID M SMITH R L STOREY R N SWANSON PAMELA TAYLOR P N R ZUTSHI ARTHUR OWEN [Westminster Avenue Seventeenth Street Corridor Study](#), 1981 **Buildings & Monuments, Modern and Mediaeval** George Godwin, 1850 **Citadel of the Saxons** Rory Naismith, 2018-11-29 With a past as deep and sinewy as the famous River Thames that twists like an eel around the jutting peninsula of Mudchute and the Isle of Dogs London is one of the world's greatest and most resilient cities Born beside the sludge and the silt of the meandering waterway that has always been its lifeblood it has weathered invasion flood abandonment fire and bombing The modern story of London is well known Much has been written about the later history of this megalopolis which like a seductive dark star has drawn incomers perpetually into its orbit Yet as Rory Naismith reveals in his zesty evocation of the nascent medieval city much less has been said about how close it came to earlier obliteration Following the collapse of Roman civilization in fifth century Britannia darkness fell over the former province Villas crumbled to ruin vital commodities became scarce cities decayed and Londinium the capital was all but abandoned Yet despite its demise as a living city memories of its greatness endured like the moss and bindweed which now ensnared its toppled columns and pilasters By the 600s a new settlement Lundenwic was established on the banks of the River Thames by enterprising traders who braved the North Sea in their precarious small boats The history of the city's phoenix like
