Why Peacekeeping Fails:

Why Peacekeeping Fails D. Jett, 2000-03-01 Dennis C Jett examines why peacekeeping operations fail by comparing the unsuccessful attempt at peacekeeping in Angola with the successful effort in Mozambique alongside a wide range of other peacekeeping experiences The book argues that while the causes of past peacekeeping failures can be identified the chances for success will be difficult to improve because of the way such operations are initiated and conducted and the way the United Nations operates as an organization Jett reviews the history of peacekeeping and the evolution in the number size scope and cost of peacekeeping missions He also explains why peacekeeping has become more necessary possible and desired and yet at the same time more complex more difficult and less frequently used The book takes a hard look at the UN s actions and provides useful information for understanding current conflicts *Why Peacekeeping Fails* Dennis C.

Jett, 2019-05-15 In this thoroughly revised edition of his bestselling 1999 volume *Why Peacekeeping Fails* Dennis Jett explains why peacekeepers today are dying in record numbers while engaged in operations that either are bound to fail or make little contribution to peace The original book compared a wide range of peacekeeping experiences including the unsuccessful attempt at peacekeeping in Angola with the successful effort in Mozambique in the early 1990 s to argue for the importance of peacekeeping and suggest ways to improve its chances for success Nearly two decades later the number of UN peacekeepers has risen to 100 000 from 15 000 and yet after years of expansion support for peacekeeping seems to be diminishing This thoroughly revised and updated 20th anniversary edition half of which is completely new material provides a timely update to Jett s previous volume examining why the dramatic growth in peacekeeping has occurred how it is now being used and why the challenges peacekeepers face cannot be dealt with alone Also considering the impact of terrorism on both recent and longstanding peacekeeping operations this book will assess the prospects of peacekeeping in an era in which the United States seems to be withdrawing from the world [Peacekeeping & International Relations](#) ,1997 [United Nations Peacekeeping](#) Oldrich Bureš, 2008

Rourke, Mark A. Boyer, 2004 Antiquities under Siege Lawrence Rothfield, 2008-03-27 As Saddam Hussein's government fell in April 2003 news accounts detailed the pillage of Iraq's National Museum The museum's looting grabbed headlines worldwide and public attention briefly focused on Iraq's threatened cultural heritage Less dramatic though far more devastating was the subsequent epidemic of looting at thousands of archaeological sites around the country Illegal digging on a massive scale continues to this day virtually unchecked with Iraq's ten thousand officially recognized sites being destroyed at a rate of roughly 10 percent per year This book contains the first full published account of the disasters that have befallen Iraq's cultural heritage and it analyzes why the array of laws and international conventions the advocacy efforts of cultural heritage organizations and the military planning and implementation of cultural protection operations all failed and continue to fail to prevent massive and irreversible loss Looking forward the book identifies new planning procedures policy mechanisms and implementation strategies capable of succeeding so the mistakes of Iraq will not be replicated in other regions in crisis whose cultural heritage are at risk Both archaeologists and policy makers will benefit from this detailed study The New Regionalism in Africa J. Andrew Grant, Fredrik Söderbaum, 2003 This edited volume transcends conventional state centric and formalistic notions of regionalism and theorizes conceptualizes and analyzes the complexities and contradictions of regionalization processes in contemporary Africa The collection not only unpacks and theorizes the African state society complex with regard to new regionalism but also explicitly integrates the often neglected discourse of human security and human development In so doing the book moves the discussion of new regionalism forward at the same time as it adds important insights to security and development It is organized into three parts Part I theorizes conceptualizes and analyzes the new regionalism in Africa from the point of view of the region e.g. West East Central and Southern Africa The national perspectives in Part II focus on the new regionalism in Africa from the point of view of particular countries or specific state society complexes such as Kenya the Democratic Republic of the Congo DRC the enclave of Cabinda Angola and Zambia Part III contains two concluding chapters that tie the main threads of the volume together theoretically and empirically and discuss the contribution of the
