Women's Human Rights Susan Deller Ross, 2013-10-09 According to Susan Deller Ross many human rights advocates still do not see women's rights as human rights Yet women in many countries suffer from laws practices customs and cultural and religious norms that consign them to a deeply inferior status Advocates might conceive of human rights as involving torture extrajudicial killings or cruel and degrading treatment all clearly in violation of international human rights and think those issues irrelevant to women Yet is female genital mutilation practiced on millions of young girls and even infants not a gross violation of human rights When a family decides to murder a daughter in the name of honor is that not an extrajudicial killing When a husband rapes or savagely beats his wife knowing the legal authorities will take no action on her behalf is that not cruel and degrading treatment Women's Human Rights is the first human rights casebook to focus specifically on women's human rights Rich with interdisciplinary material the book advances the study of the deprivation and violence women suffer due to discriminatory laws religions and customs that deny them their most fundamental freedoms It also provides present and future lawyers the legal tools for change demonstrating how human rights treaties can be used to obtain new laws and court decisions that protect women against discrimination with respect to employment land ownership inheritance subordination in marriage domestic violence female genital mutilation polygamy child marriage and the denial of reproductive rights Ross examines international and regional human rights treaties in depth including treaty language and the jurisprudence and general interpretive guidelines developed by human rights bodies By studying how international human rights law has been and can be implemented at the domestic level through local courts and legislatures readers will understand how to call upon these newly articulated human rights to help bring about legislation court decisions and executive action that protect women from human rights violations *Political Women in Japan* Susan J. Pharr, 1981-01-01

Chinese Feminism Faces Globalization Sharon Wesoky, 2013-09-05 Examining Chinese domestic as well as international circumstances surrounding the emergence of an independent women's movement in Beijing in the 1990s this book seeks to explain how such a movement could have arisen after the repression of student activists in Tiananmen Square in 1989 It also places this emergence in the context of theories of social movements civil society and globalization *Annual register of women's clubs*, 1919 *Women and Politics* Gwen Moore, Glenna D. Spitze, 1986 **Stop Street Harassment** Holly Kearn, 2010-08-03 Using groundbreaking studies news stories and interviews this book underscores that there will never be gender equity until men stop harassing women in public spaces and it details strategies for achieving this goal Street harassment is generally dismissed as harmless but in reality it causes women to feel unsafe in public at least sometimes To achieve true gender equality it must come to an end Stop Street Harassment Making Public Places Safe and Welcoming for Women draws on academic studies informal surveys news articles and interviews with activists to explore the practice's definition and prevalence the societal contexts in which it occurs and the role of factors such as race and sexual

orientation Perhaps more crucially the book makes clear how women experience street harassment how they feel about and respond to it and the ways it negatively impacts lives But understanding is only a beginning In the second half of the book readers will find concrete strategies for dealing with street harassers and ways to become involved in working to end this all too common violation Educators counselors parents and other concerned individuals will discover resources for teaching about harassment and modeling behavior that will help prevent harassment incidents

Gender Equality in Context Brigitte Liebig, Karin Gottschall, Birgit Sauer, 2016-01-18 Gender Equality has not yet been achieved in many western countries Switzerland in particular has failed as a forerunner in integrating women in politics and economy Taking Switzerland as a case study the authors critically reflect the state of gender equality in different policy areas such as education family and labour The collection of articles reveals how gender policies and cultural contexts interact with social practices of gender in equality They also outline the gender ed effects of recent changes and reform strategies for scientists politicians and practitioners
