*They Never Said It : A Book of Fake Quotes, Misquotes, and Misleading Attributions* Paul F. Boller Jr. Emeritus Professor of History Texas Christian University, Oklahoma John George Jr. Professor of Political Science and Sociology Central State University, 1989-05-18 Abraham Lincoln never said You cannot fool all the people all the time Thomas Jefferson never said That government is best which governs least And Horace Greeley never said Go west young man In *They Never Said It* Paul Boller Jr and John George examine hundreds of misquotations incorrect attributions and blatant fabrications outlining the origins of the quotes and revealing why they should be consigned to the historical trashcan Many of the misquotes are quite harmless Some are inadvertent misquotes that have become popular Shakespeare actually said The best part of valor is discretion others the inventions of reporters embellishing a story Franklin Roosevelt never opened a speech to a DAR group with the salutation My fellow immigrants But some of the quotes such as Charles Darwin s supposed deathbed recantation of evolution are blatantly dishonest and falsify the historical record And others are chillingly vicious filled with virulent racial and religious prejudices that completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America and the fabricated condemnation of Catholics attributed to Lincoln An entertaining and yet thought provoking book *They Never Said It* sorts out a great deal of history and sets it right going beyond a mere catalog of popular misconceptions to reveal how conservatives and liberals atheists and evangelists all have at times twisted and even invented the words of eminent figures to promote their own ends It is the ultimate debunking reference a perfect complement to handbooks of quotations

Underdogma Michael Prell, 2011-02-01 Analyzing and refuting the common assumptions of anti Americanism is a critical contribution to the global political debate Thank goodness for this effort UN Ambassador John Bolton author of *Surrender is Not an Option* David versus Goliath the American Revolutionaries *The Little Engine That Could* Team USA s *Miracle on Ice* the Star Wars Rebel Alliance Rocky Balboa the Jamaican bobsled team and the meek inheriting the Earth Everyone it seems loves an underdog Why is that We begin life tiny and helpless at the mercy of those who are bigger and more powerful than us parents and guardians who tell us what to eat what to wear how to behave even when to sleep and wake up From childhood into adulthood we re told what to do by those who wield more power our parents teachers bosses government So naturally we have a predisposition to resent the overdogs and root for the little guy But this tendency which international political consultant and human rights activist Michael Prell calls underdogma can be very dangerous both to America and to the world at large In *Underdogma* Prell who has worked world leaders including Israeli Prime Minister Benjamin Netanyahu the Australian and Canadian prime ministers and the Dalai Lama explores our love hate relationship with power within our culture and our politics *Underdogma* explains seeming mysteries such as why Almost half of Americans blamed President Bush for the attacks of 9 11 even while the American media described the architect of these

attacks as thoughtful about his cause and craft and folksy Gays and lesbians protest those who protect gay rights America Israel while championing those who outlaw and execute homosexuals Palestine Environmentalists focus their rage on America even though China is the largest emitter of greenhouse gases The United Nations elevates countries such as Sudan to full membership on the UN s Commission on Human Rights even as the ethnic cleansing of Darfur proceeds Tracing the evolution of this belief system through human history ancient Greece to Marxism to the dawn of political correctness Prell shows what continuing with this collective mindset means for our future While America and its president increasingly exalt the meek and apologize for their power America s competitors and enemies are moving in a different direction China is projected to overtake the U S economically by 2027 and is ready to move into the position of hegemon and radical Islamists are looking to extend their global territory taking any sign of weakness as a chance to attack America must return to its founding spirit and underdogma must stop now our nation depends on it [Tyrants on Twitter](#) David L. Sloss,2022-04-12 A look inside the weaponization of social media and an innovative proposal for protecting Western democracies from information warfare When Facebook Twitter YouTube and Instagram were first introduced to the public their mission was simple they were designed to help people become more connected to each other Social media became a thriving digital space by giving its users the freedom to share whatever they wanted with their friends and followers Unfortunately these same digital tools are also easy to manipulate As exemplified by Russia s interference in the 2016 U S presidential election authoritarian states can exploit social media to interfere with democratic governance in open societies Tyrants on Twitter is the first detailed analysis of how Chinese and Russian agents weaponize Facebook Instagram Twitter and YouTube to subvert the liberal international order In addition to examining the 2016 U S election David L Sloss explores Russia s use of foreign influence operations to threaten democracies in Europe as well as China s use of social media and other digital tools to meddle in Western democracies and buttress autocratic rulers around the world Sloss calls for cooperation among democratic governments to create a new transnational system for regulating social media to protect Western democracies from information warfare Drawing on his professional experience as an arms control negotiator he outlines a novel system of transnational governance that Western democracies can enforce by harmonizing their domestic regulations And drawing on his academic expertise in constitutional law he explains why that system if implemented by legislation in the United States would be constitutionally defensible despite likely First Amendment objections With its critical examination of information warfare and its proposal for practical legislative solutions to fight back this book is essential reading in a time when disinformation campaigns threaten to undermine democracy **Beyond Authority** J. Middleton,2007-01-15 Through compelling ideas and examples Beyond Authority argues that new leaders need to be confident to legitimise themselves and challenge old ways They need to develop a leadership style that enables them to lead beyond the traditional boundaries and constraints of their organizations **The New York Times Magazine** ,1987 **The Teacher's Handbook to the Circle**
