Using The Runes:

Taking Up The Runes Diana L. Paxson, 2005-05-01 Although many of us first encountered runes in J R R Tolkien's Lord of the Rings this sacred alphabet is by no means a fabrication for books or movies Similar to Hebrew letters in the sense that each symbol contains a meaning that transcends its original function as a letter the runes are practical flexible and effective symbols with a variety of uses From the introduction Effective use of the runes requires both the old wisdom and the new The student must not only consciously study the meanings ascribed to the runes by earlier scholars but must internalize them Today the best known application of rune lore is divination chips or stones marked with the runes are drawn cast or laid out in patterns like tarot cards In Taking Up the Runes Paxson delves into the ancient historical meaning of each rune and explains their contemporary uses and meanings We discover that the real power of runes comes from inside ourselves when we find the wisdom and power within each symbol and internalize them Taking Up the Runes is the ultimate workbook for using the runes on a psychic spiritual and magical level Learn how to make your own rune set and how to use the runes in guided meditations and song [The Practical Guide To Using Ancient Runes For Modern Divination](#) Dayanara Blue Star, 2015-02-15 Runes are an ancient method of divination that still remain popular and useful today Many people find them intriguing because of their unique history and specific means of divination Unlike fortune telling runes are used to delve into a person's subconscious and explore their true desires They can be a wonderful aid in meditational practice gaining self awareness or just getting some more perspective on various situations in your life To people unfamiliar with divination tools it may seem like some kind of spooky magic trick witchcraft or even something demonic None of those descriptions are accurate and actually runes encourage a person to explore their own mind and gain self introspection Initially part of an ancient Germanic alphabet Runes have existed for hundreds of years Versions of runes have been found in many different cultures all across the world with stones created in a multitude of alphabets and designs Simply put runes are an old relic that has survived the test of time and is still proven useful today The stones are a simple oracle which one can use to stimulate the thinking process When the stones are cast they aren't always entirely specific meaning it is up to you to consider what they are telling you and how it relates to what you were asking This often opens that pathway for critical thinking solving problems and reducing stress **Rune Stones** D. The enigmatic nature of the runes is undeniable In fact the English word rune comes to us from the Norse word runa which means a secret or to whisper As symbols the runes mean little to the untrained eye yet the magical energies they activate can be used for positive impactful change in your everyday life But what are runes exactly On the surface level runes are the characters in a writing system used by the ancient Germanic peoples of Europe But unlike our modern letters the runic symbols had been used for magical purposes long before they were fashioned into an alphabet This is known from runic inscriptions found on ancient artifacts as well as Germanic myth and lore handed down over the centuries Indeed those who work with the runes today are taking part in an age old magical tradition established by our Northern European pagan ancestors In Runes for Beginners best selling author Lisa Chamberlain shines the light on these ancient symbols showing you how to discover and utilize their unique magical energies With both an eye toward tradition and a multicultural spirit Lisa combines an appreciation for the Germanic roots of the runes with a more eclectic Neopagan approach Unlike many other books on the topic Runes for Beginners is completely accessible to those with no experience in Northern European magical traditions yet it doesn't ignore those traditions altogether You will emerge from this guide with a basic understanding of the runes role in ancient Germanic paganism as well as a solid foundation of knowledge to build your own runic practice regardless of your religious or spiritual path Foundations in Runic Magic and Divination The runes represent various aspects of the human experience of the Universe both tangible and intangible Each runic symbol embodies a natural force or type of energy which the rune worker can attune to and then manipulate in various ways Runes can be sent out into the Universe to manifest a magical goal or they can be used to consult with the unseen realms about a situation at hand In Runes for Beginners you'll learn all you need to know to start working with runes including The history of the runes and their role within the framework of the Germanic magical worldview The origins of runic wisdom in Norse mythology An overview of the Elder Futhark the oldest known runic alphabet and most widely used rune system in contemporary Neopaganism Basic
