Resource Peripheries in the Global Economy Felipe Irarrázaval, Martín Arias-Loyola, 2021-10-11 This book discusses the conditions that underpin configuration of specific places as resource peripheries and the consequences that such a socio spatial formation involves for those places The book thereby provides an interdisciplinary approach underpinned by economic

geography political ecology resource geography development studies and political geography It also discusses the different technological political and economic changes that make the ongoing production of resource peripheries a distinctive socio spatial formation under the global economy Through a global and interdisciplinary perspective that uncovers ongoing political processes socio economic changes and socio ecological dynamics at resource peripheries this book argues that it is critical to take a more profound appraisal about the socio spatial processes behind the contemporary way in which capitalism is appropriating and transforming nature

Encyclopedia of Business Management, 2025-09-01 The Encyclopedia of Business Management Four Volume Set is a comprehensive resource that covers over 200 topics across various areas of business management Each entry is written in an accessible manner making complex concepts easy to understand The encyclopedia addresses interdisciplinary subjects such as cultural entrepreneurship tourism innovation and marketing promotions By emphasizing definitions and practical applications the entries help readers grasp the relevance of each topic Expert editors lead each section ensuring that the contributions are authoritative and well rounded The encyclopedia is divided into seven broad themes including business entrepreneurship human resource management innovation management international business organizational behavior project management supply chain management and sport and tourism management Each section's articles begin with a technical analysis of key definitional issues followed by an exploration of the topic's broader context This structured approach provides a holistic examination of the subjects allowing readers to gain a comprehensive understanding of vital business management concepts Provides a comprehensive overview of the main business management topics Focuses specifically on business management from a range of perspectives Includes new and emerging business management topics Presents an interdisciplinary focus in terms of business management practices Features templates across all chapters for ease of navigation and use *JPRS Report*, 1989 **Automatic and Remote Control** International Federation of Automatic Control, 1960 *Home Digital Twins* Tuan Anh Nguyen, 2026-02-20 Home Digital Twins explores how digital twin technologies can serve as a bridge between the real home and the virtual home It explains how IoT devices wearable sensors artificial intelligence AI and machine learning ML can aid in the diagnosis prediction and prevention of abnormal critical extreme problems in real home environments while also showing how digital twin computing can support the management of home energy consumption to optimize everyday living The book also considers the security and ethical implications of introducing digital twin technology in the home to ensure the technology benefit the lives of the home's inhabitants The introduction of sensor networks into the home environment allows automation into the home utilizing internet of things IoT

devices to program for example door opening room luminosity room temperature and humidity Digital Twin technology extends the capabilities of the smart home collecting and analyzing data from the Activities of Daily Living ADLs and applying Human Activity Recognition HAR algorithms to provide adaptive services including minimizing power consumption improving healthcare and enhancing overall well being However there are many challenges when applying these algorithms to the smart home due to the variability and sparsity of sensor data which can lead to a mismatch between the real home and the digital home Explains how digital twins gather real home data to create a virtual model of the home Considers the associated technologies that support home digital twins including Internet of things artificial intelligence machine learning and blockchain Explores how digital twins can be used in the home to monitor and improve our daily lives

Domain-Specific Application Frameworks Mohamed E. Fayad, Ralph E. Johnson, 2000 Object Technology An invaluable collection of domain specific frameworks Domain Specific Application Frameworks Frameworks provide generic software architectures that can be reused indefinitely to generate new applications But they don't readily translate from one business or industry domain to another A telecommunications framework looks very different from a currency trading framework for instance Developers need instruction on how to build frameworks specific to the domains for which they program Now this book CD ROM package gives developers models and much more Each chapter is built around a case study reporting a major framework implementation or customization project The 30 examples contained in the book cover an array of application domains including Flexible manufacturing architectures Computer integrated manufacturing New generation control systems Concurrent engineering Reliable distributed computing High performance Web servers Multimedia telecommunications Networking and telecommunications Industrial visualization And many others The enclosed CD ROM gives you Example frameworks Documentation and manuals Framework code and implementation tips Sample framework architectures and models Design patterns and presentations Animated demonstrations

Analysis, Design, and Evaluation of Human-Machine Systems 2004 Amy Pritchett, 2005 **Documentation Abstracts**, 1997 **Ethics and Technology** Herman T.
