Biohacking Mastery JOSEPH. PLAZO,2026-01-07 This is not a wellness book It s an operating manual for a hostile world If you re exhausted but not lazy Successful but secretly degrading Smart but feel like your brain is buffering in a fiber optic world This book was written for you Biohacking Mastery exposes the uncomfortable truth most productivity and wellness culture refuses to admit Burnout isn t weakness It s biological misalignment You didn t fail Your operating system did Written by lawyer and systems strategist Joseph Plazo this book is the result of a decade spent reverse engineering how elite performers hedge fund operators founders surgeons special operators and high stakes decision makers actually maintain dominance under pressure Not what they post Not what they sell What they quietly execute Inside This Underground Playbook You ll Discover Why burnout is a lie and how modern environments sabotage high performers first The Human Operating System Human OS a framework to engineer energy cognition recovery and adaptation How peptides really work and why most users sabotage results before they start The boring supplement strategies that quietly compound into massive advantage Exercise as neurochemical engineering not aesthetics Accelerated learning and photoreading frameworks used by elite thinkers How to regulate your nervous system on command even under extreme pressure Why motivation fails and systems always win How to build power without spectacle ego or burnout This is not about hacks It s about control Control over your energy Control over your focus Control over your biology Who This Book Is For Founders running on fumes Executives watching younger competitors outpace them Lawyers doctors traders and operators under relentless cognitive load High performers who already burned out once and refuse to do it again Anyone who suspects the mainstream advice is dangerously incomplete Who This Book Is Not For Wellness tourists Influencer stack collectors Anyone looking for motivation quotes or gentle affirmations This book assumes you want results not reassurance Think of It This Way Most people treat their body like a fragile temple Elite performers treat it like a machine Inputs Outputs Signals Responses Data Decisions Once you see this everything changes You stop chasing motivation You stop blaming yourself You start engineering outcomes If You re Ready to Stop Surviving and Start Operating Turn the page The real work begins now

Pop-up Maktivism Matthew C. J. Donovan,2019 The biohacker movement is an important and modern form of activism

This study broadly examines how positive activist oriented biohackers emerge organize and respond to social crises Despite growing public awareness few studies have examined biohacking s influence on prevailing notions of organizing and medicine in context Therefore this study examines biohacking in the context of the 2016 EpiPen price gouging crisis and explores how biohackers communicatively attempted to constitute counter narratives and counter logics about medical access and price through do it yourself DIY medical device alternatives Discourse tracing and critical case study analysis are useful methodological frameworks for mapping the historical discursive and material logics that led to the EpiPen pricing crisis including the medicalization of allergy the advancement of drug device combination technologies and role of public health policy and pharmaceutical marketing tactics Findings suggest two new interpretations for how non traditional forms of organizing facilitate new modes of resistance in times of institutional crisis First the study considers the concept of pop up maktivism to conceptualize activism as a type of connective activity rather than collective organizing Second findings illustrate how activities such as participation and co production can function as meaningful forms of institutional resistance within dominant discourses This study proposes mirrored materiality to describe how biohackers deploy certain dominant logics to contest others Lastly implications for contributions to the conceptual frameworks of biopower sociomateriality and alternative organizing are discussed
