Fernández-Berrocal, Purificación Checa, 2016-09-07 Nowadays not only psychologists are interested in the study of Emotional Intelligence EI Teachers educator managers employers and people in general pay attention to EI For example teachers would like to know how EI could affect student s academic results and managers are concerned about how EI influences their employees performance The concept of EI has been widely used in recent years to the extent that people start to applying it in daily life EI is broadly defined as the capacity to process and use emotional information More specifically according to Mayer and Salovey EI is the ability to 1 accurate perception appraise and expression of emotion 2 access and or generation of feelings when they facilitate thought 3 understand emotions and emotional knowledge and 4 regulate emotions to promote emotional and intellectual growth Mayer and Salovey 1997 p 10 When new information arises into one specific area of knowledge the work of the scientists is to investigate the relation between this new information and other established concepts In this sense EI could be considered as a new framework to explain human behaviour As a young concept in Psychology EI could be used to elucidate the performance in the activities of everyday life Over the past two decades studies of EI have tried to delimitate how EI is linked to other competences A vast number of studies have reported a relation between EI and a large list of competences such as academic and work success life satisfaction attendee to emotions assertiveness emotional expression emotional based decision making impulsive control stress management among others

Moreover recent researches have shown that EI plays an important role in the prediction of behaviour besides personality and cognitive factors However it is not until quite recently that studies on EI have considered the importance of individual differences in EI and their interaction with cognitive abilities The general issue of this Research Topic was to expose the role of individual differences on EI in the development of a large number of competencies that support a more efficient performance in people s everyday life The present Research Topic provide an extensive review that may give light to the better understanding of how individual differences in EI affect human behaviour We have considered studies that analyse 1 how EI contributes to emotional cognitive and social process beyond the well known contribution of IQ and personality traits as well as the brain system that supports the EI 2 how EI contributes to relationships among emotions and health and well being 3 the roles of EI during early development and the evaluation in different populations 4 how implicit beliefs about emotions and EI influence emotional abilities El test de matrices progresivas de raven Florentino Rodao,1982

Intelligence Measurement and School Performance in Latin America Carmen Flores-Mendoza,Rubén Ardila,Ricardo Rosas,María Emilia Lucio,Miguel Gallegos,Norma Reátegui Colareta,2018-06-20 This book presents the results of the most complete and updated assessment of cognitive resources of students in Latin America the Study of Latin American Intelligence SLATINT During four years top researchers of the region used a standardized set of cognitive measures to assess 4 000 students aged between 14 and 15 years from six countries Brazil Argentina Mexico Chile Colombia and Peru The data collected and now analyzed in this volume is a first step to understand the human cognitive capital of the region a crucial resource for any country today Intelligence research has shown that the cognitive skills of a population are strongly associated with the school performance of its students and the development of a nation This makes Intelligence Measurement and School Performance in Latin America a valuable tool both for Latin American researchers and authorities engaged in the improvement of each country s human resources and for psychologists educators and other social scientists dedicated to the study of the impact of intelligence in the development of nations Guide to Psychological Assessment with Hispanics Lorraine T. Benuto,2012-09-19 This book focuses on diversity culture and ethnicity as they relate to psychological assessment of Hispanics It is a how to guide for clinicians researchers and instructors working with Hispanic clients Each chapter contains an overview of cultural considerations needed for assessing the Hispanic client followed by a specific exploration of the assessment measures available and the research that has been conducted on these measures with Hispanic participants An exploration of the strengths and limitations of each assessment measure is included Considering that ethnocultural minority individuals who are of Hispanic Latino origin make up the largest ethnocultural minority group in the United States guidelines for working with this population are a must Given that a large subset of this percentage is composed of immigrants many of whom do not speak English or who have learned English as a second language special considerations for effective psychological assessment are necessary This book fills a gap in the scientific literature by consolidating the

research on psychological assessment with Hispanic samples into one comprehensive volume and providing simple recommendations for the psychological assessment of Hispanic clients An exploration of the general psychological assessment domains e g personality intelligence is included with references to research on the major assessment measures used in the field A more specific exploration of psychodiagnostic assessment measures follows including the assessment of mood disorders anxiety disorders sexual dysfunction psychosis etc Several chapters are dedicated to specialized assessment including neuropsychological assessment forensic assessment and school based assessment overall creating the most comprehensive up to date research based compendium of psychological assessment measures for use with Hispanic clients

Libros en venta en Hispanoamérica y España ,1992 **Cultural Diversity in Neuropsychological Assessment**
Farzin Irani,2022-02-27 Cultural Diversity in Neuropsychological Assessment provides a platform for clinical neuropsychologists psychologists and trainees to bridge cultures and speak to each other about the ethnically diverse communities they serve throughout the world It allows readers to peek into their clinical filing cabinets and examine how they worked with diverse individuals from indigenous and migrant communities of Arab Asian European Israeli Latin American and Caribbean Persian Russian Sub Saharan African and North American origin The book first reviews important foundations for working with diverse communities that include key knowledge awareness skills and action orientation It then provides a collection of cases for each cultural geographic region Each section begins with an introductory chapter to provide a bird s eye view of the historical and current state of clinical and research practice of neuropsychology in that region Then each chapter focuses on a specific community by providing surface and deep level cultural background knowledge from the authors unique perspectives A case study is then covered in depth to practically showcase an evaluation with someone from that community This is followed by a summary of key strategic points lessons learned references further readings and a glossary of culture specific terminology used throughout the chapter In the end the appendix provides a list of culturally relevant tests and norms for some communities This ground breaking peer reviewed handbook provides an invaluable clinical resource for neuropsychologists psychologists and trainees It increases self reflection about multicultural awareness and knowledge highlights practical ways to increase cultural understanding in neuropsychological and psychological assessments and sparks further discussion for professional and personal growth in this area **Material especializado para el docente** Biblioteca Nacional de Maestros (Argentina),1997 *Estudio comparativo de la utilidad de la prueba de apercepción para niños (CAT) y la prueba de apercepción temática (TAT) como técnicas proyectivas en un grupo de niñas de seis años* Guadalupe Casares Elcoro,1963 Test de matrices progresivas escalas coloreada, general y avanzada John C.
