Tucker Wise,2015-07-11 Excerpt from *Alpine Winter In Its Medical Aspects With Notes on Davos Platz Wiesen St Moritz and the Maloja* In this new edition of the *Alpine Climate Series* I have made a resume of my studies in the mountain health stations of the Grisons Although other matters have claimed attention and limited the time at my disposal I have been enabled to include winter observations of the Maloja Plateau in the Upper Engadine As the Belgian enterprise of building a Kursaal there is the first true attempt to construct a building in these cold climates with an efficient and costly system of ventilation and warming without the aid of stoves a special portion of the book has been devoted to its description It is to be hoped that the example set in sanitary matters in this undertaking may be soon imitated by hotel companies and proprietors so that the great blot of the Alpine Cure Stations viz faulty ventilation of dwellings and bad drainage may meet with the scrutiny which such important points demand In addition to the steps taken for renewing the air in this new establishment by artificial means a plan has been adopted at my suggestion of introducing ozone into the building This is effected by electricity in connection with the electric lighting of the Kursaal a fall of the river Inn being the motor force employed for the purpose About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
