We Two:

Glimpses of Oneida Life Karin Michelson, Norma Kennedy, Mercy Doxtator, 2016-01-01 *Glimpses of Oneida Life* is a remarkable compilation of modern stories of community life at the Oneida Nation of the Thames Settlement and the surrounding area. With topics ranging from work experiences and Oneida customs to pranks, humorous encounters, and ghost stories, these fifty-two unscripted narrations and conversations in Oneida represent a rare collection of first-hand Iroquoian reflections on aspects of daily life and culture not found in print elsewhere. Each text is presented in Oneida with both an interlinear word-by-word translation and a more colloquial translation in English. The book also contains a grammatical sketch of the Oneida language by Karin Michelson, co-author of the *Oneida English-English Oneida Dictionary* that describes how words are structured and combined into larger linguistic structures, thus allowing *Glimpses* to be used as a teaching text as well. The engrossing tales in *Glimpses of Oneida Life* will be a valuable resource for linguists and language learners, a useful source for those studying the history and culture of Iroquois people in the twentieth century, and an entertaining read for anyone interested in everyday First Nations life in southern Ontario.

Australian Languages Claire Bower, Harold Koch, 2004-03-18 This book addresses controversial issues in the application of the comparative method to the languages of Australia, which have recently come to international prominence. Are these languages different in ways that challenge the fundamental assumptions of historical linguistics? Can subgrouping be successfully undertaken using the Comparative Method? Is the genetic construct of a far-flung Pama-Nyungan language family supportable by classic methods of reconstruction? Contrary to increasingly established views of the Australian scene, this book makes a major contribution to the demonstration that traditional methods can indeed be applied to these languages. These studies, introduced by chapters on subgrouping methodology and the history of Australian linguistic classification, rigorously apply the comparative method to establishing subgroups among Australian languages and justifying the phonology of Proto-Pama-Nyungan. Individual chapters can profitably be read either for their contribution to Australian linguistic prehistory or as case studies in the application of the comparative method.
