Magazine, 1911 Thackeray's Novels Jack P. Rawlins, 2024-06-28 Jack P Rawlins's study explores one of the great problems of mid Victorian literature the explanation and justification of William Makepeace Thackeray's narrative style and structure Rawlins finds that Thackeray in his novels of English society uses an exaggeratedly conventional plot structure as a means to comment on the condition of the novel in England The frustration and fury that have traditionally been the response of the feeling reader to the excesses of Thackeray's narrator are the result of a basic aesthetic conflict of which Thackeray wants to make us inescapably aware a conflict between the dramatic action which demands a commitment from us and a narrator who feels that the commitment has been thoughtlessly made and who seeks to turn our attention to the didactic uses of the novel to the lie of the realistic and to other aesthetic and moral issues Treating *The Newcomers* *Vanity Fair* *The Virginians* and *Philip* in detail and the other works in the canon more briefly Rawlins locates Thackeray directly astride the most serious aesthetic problem of his age the status of fiction and its proper employment This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974

Some Aspects of Characterisation in Thackeray Robert Bell Hunter, William Makepeace Thackeray, 1938 The Book News Monthly, 1911 **Empty Houses** David Kurnick, 2012 According to the dominant tradition of literary criticism the novel is the form par excellence of the private individual *Empty Houses* challenges this consensus by reexamining the genre's development from the mid nineteenth to the mid twentieth century and exploring what has until now seemed an anomaly the frustrated theatrical ambitions of major novelists Offering new interpretations of the careers of William Makepeace Thackeray George Eliot Henry James James Joyce and James Baldwin writers known for mapping ever narrower interior geographies this book argues that the genre's inward looking tendency has been misunderstood Delving into the critical role of the theater in the origins of the novel of interiority David Kurnick reinterprets the novel as a record of dissatisfaction with inwardness and an injunction to rethink human identity in radically collective and social terms Exploring neglected texts in order to reread canonical ones Kurnick shows that the theatrical ambitions of major novelists had crucial formal and ideological effects on their masterworks Investigating a key stretch of each of these novelistic careers he

establishes the theatrical genealogy of some of the signal techniques of narrative interiority In the process he illustrates how the novel is marked by a hunger for palpable collectivity and argues that the genre s discontents have been a shaping force in its evolution A groundbreaking rereading of the novel Empty Houses provides new ways to consider the novelistic imagination **The Outlook** ,1911
