**Understanding Gregory Bateson** Noel G. Charlton, 2008-05-08 Introduction to Gregory Bateson's unique perspective on the relationship of humanity to the natural world [Confronting Confucian Understandings of the Christian Doctrine of Salvation](#)

Paulos Zhanzhu Huang, 2009 A complete exploration is the first systematic analysis ever comparing the central religious doctrinal aspects of Christianity with those in Confucianism Huang's work carefully covers the whole history of the Confucian Christian tradition and ends up with genuinely new insights He elaborates on the idea of transcendence in the Confucian tradition in a manner which enables an interpretation of the Christian means of salvation His explanation of transcendence and its connection with the means of salvation is new and unique offering a clue to the special understanding of salvation germane to the specifically Chinese intellectual history Huang's book is a must for anyone interested in the Sino-Western cultural encounter **The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank

Thilly, Gustavus Watts Cunningham, 2006 *Paul Ricœur, Philosophical Hermeneutics, and the Question of Revelation* Christina M. Gschwandtner, 2024-01-08 The topic of revelation is fundamental to any account of religious experience playing a special role in the Judeo-Christian tradition where the texts of Scripture are regarded as revealed Yet any reflection on the revealed status of a given message or text requires interpretation Paul Ricoeur one of the most important hermeneutic philosophers of the twentieth century provides crucial insights on how such interpretation might proceed and what it might mean for texts to be revealed Edited by Christina M Gschwandtner Paul Ricoeur *Philosophical Hermeneutics and the Question of Revelation* brings together major scholars of Ricoeur's work on the topic of revelation showing both the role it already plays in his work and how his thinking might be taken further Several contributors trace the development of his thought in regard to the concept of revelation Others discuss the revelatory dimensions of Ricoeur's hermeneutics of the self especially for such issues as identity trauma and forgiveness Several contributions also place his work in conversation with that of other seminal thinkers on the topic of revelation such as Karl Barth and Paul Tillich *Interpretation and*

*Explanation in the Human Sciences* David K. Henderson, 1993-07-01 Henderson examines the foundations of an analytic social science approach to develop a well-integrated account of the human sciences focusing on the pivotal notions of interpretation and explanation The author acknowledges the importance of interpretive understanding in the human sciences and proposes a methodology that reflects both interpretive practice as well as scientific methodology He refutes the methodological separatists who hold that the logic of explanation and testing in the human sciences is fundamentally different from that of the natural sciences and examines in detail the constraints on interpretation In providing an integrated treatment of these two central issues in social science Henderson offers a thorough analysis of the adequacy of interpretation and the nature of explanation in the human sciences *Critical Affinities* Jacqueline Scott, A. Todd Franklin, 2012-02-01

*Critical Affinities* is the first book to explore the multifaceted relationship between the philosophy of Friedrich Nietzsche and

various dimensions of African American thought Exploring the connections between these two unlikely interlocutors the contributors focus on unmasking and understanding the root causes and racially inflected symptoms of various manifestations of cultural malaise They contemplate the operative warrant for reconstituted conceptions of racial identity and recognize the existential and social recuperative potential of the will to power In so doing they simultaneously foster and exemplify a nuanced understanding of what both traditions regard as the art of the cultural physician The contributors connote daring scholarly attempts to explicate the ways in which clarifying the critical affinities between Nietzsche and various expressions of African American thought not only enriches our understanding of each but also enhances our ability to realize the broader ends of advancing the prospects for social and psychological flourishing Books in Series, 1876-1949
