Some Summer:

Some Summer Oceanographic Features of the Laptev and East Siberian Seas Robert C. Lockerman, 1968 In August September 1963 a high degree of stratification for both temperature and salinity was observed in the Laptev and East Siberian Seas Temperatures decreased with depth and with distance away from the Siberian coast and salinities decreased vertically from the bottom and toward the coast The five large rivers emptying into the Laptev Sea influence the temperature salinity characteristics to a great extent causing high temperatures and low salinities near the coast and in the upper layers seaward The Lena River fluvial plume on the basis of salinity distribution was observed to extend in a north to northeasterly direction from the river delta The combined effects of the Khatanga and Anabar River runoff extended in a northeasterly direction from the Khatanga River Estuary with vertical distribution of the low salinity water limited to the upper 10 meters Water of three temperature salinity relationships was observed in the East Siberian Sea in both 1963 and 1964 Near the coast between the Indigirka River and Chaunskaya Bay warm low salinity water was observed In the sea s shallower western regions cold water with slightly higher salinities was noted Both of these water types can be attributed to river runoff with cooling and mixing in transit accounting for the colder water and higher salinities Water in the eastern East Siberian Sea through Long Strait and into the Chukchi Sea was observed to have water as cold as 1 8C and as warm as 1 4C associated with salinities from 28 to 33% Lower dissolved oxygen values were present in Lena River effluent than in water in the northern and western Laptev Sea Author Some Summer Days in Iowa Frederick John Lazell, 2019-12-24 In Some Summer Days in Iowa Frederick John Lazell presents a poignant exploration of rural life through a series of reflective essays The work is characterized by its lyrical prose and vivid imagery embodying a sense of nostalgia and appreciation for the fleeting beauty of summer in the Midwest Set against the backdrop of Iowa s diverse landscapes each essay captures not only personal memories but also broader themes of nature community and the passage of time making the book resonate with readers familiar with pastoral literature Lazell s observational style immerses readers in sensory experiences transforming ordinary moments into profound reflections on existence Frederick John Lazell is a writer whose deep rooted connection to the American Midwest informs much of his work Raised in Iowa Lazell s life experiences including his encounters with the region s rich cultural tapestry and natural beauty have profoundly shaped his narrative voice His profound insights stem from both personal and collective histories of farm life which he deftly weaves into his essays offering a unique perspective that reflects the duality of nostalgia and immediacy For anyone who cherishes the simplicity and complexity of rural life Some Summer Days in Iowa is an essential read Lazell s lyrical reflections invite readers to pause and appreciate their surroundings making it a compelling addition to the canon of Midwestern literature This book promises to resonate with those who seek solace in nature and community offering a rich tapestry of emotions that will linger long after the last page Some Summer Oceanographic Features of the Norwegian Sea, Summer 1963 United States.
