Something Beautiful:

Do Something Beautiful York Moore, 2018-07-03 Do you find yourself chasing something more We are people seized by longings we can't seem to satisfy It's built into us in our very bones We were created with an innate desire to be a part of a world and a story bigger than ours Sadly however most of us spend our lives blind to the fact that this story and this world are right in front of us beckoning to us to come and play our part We keep on with our focused relentless pursuit of everything else and find ourselves dissatisfied In *Do Something Beautiful* York Moore shows you how to reframe your own story and begin seeing God's story breaking into your life in the everyday moments leave behind mediocrity and be a part of that beautiful story and make your life count for something that matters Don't give up on your something more Chase it better

Tell Them Something Beautiful Samuel D. Rocha, 2017-04-20 A collection of essays composed during the Obama presidency on politics theology art and education Social and political critique pastoral philosophy postmodern theology deschooling and folk phenomenology Rocha's essays in *Tell Them Something Beautiful* cover a range of topics and ideas held together by his literary style and integrated point of view

Beauty and the End of Art Sonia Sedivy, 2016-04-21 *Beauty and the End of Art* shows how a resurgence of interest in beauty and a sense of ending in Western art are challenging us to rethink art beauty and their relationship By arguing that Wittgenstein's later work and contemporary theory of perception offer just what we need for a unified approach to art and beauty Sonia Sedivy provides new answers to these contemporary challenges These new accounts also provide support for the Wittgensteinian realism and theory of perception that make them possible Wittgenstein's subtle form of realism explains artworks in terms of norm governed practices that have their own varied constitutive norms and values Wittgensteinian realism also suggests that diverse beauties become available and compelling in different cultural eras and bring a shared higher order value into view With this framework in place Sedivy argues that perception is a form of engagement with the world that draws on our conceptual capacities This approach explains how perceptual experience and the perceptible presence of the world are of value helping to account for the diversity of beauties that are available in different historical contexts and why the many faces of beauty allow us to experience the value of the world's perceptible presence Carefully examining contemporary debates about art aesthetics and perception *Beauty and the End of Art* presents an original approach Insights from such diverse thinkers as Immanuel Kant Hans Georg Gadamer and Arthur Danto Alexander Nehamas Elaine Scarry and Dave Hickey are woven together to reveal how they make good sense if we bring contemporary theory of perception and Wittgensteinian realism into the conversation

The Revival of Beauty Catherine Wesselinoff, 2023-08-18 This book provides original descriptive accounts of two schools of thought in the philosophy of beauty the 20th century Anti Aesthetic movement and the 21st century Beauty Revival movement It also includes a positive defence of beauty as a lived experience extrapolated from Beauty Revival position Beauty was traditionally understood in the broadest sense as a notion that engages our sense perception and embraces

everything evoked by that perception including mental products and affective states This book constructs and places in parallel with one another the Anti Aesthetic and Beauty Revival movements In the author s view Anti Aestheticism is devoted to a decisive negation of beauty denying its importance as a philosophical notion and its significance as a lived experience It suggests that beauty is a merely sensual experience which can be used at best as a distraction from justice and at worst as an instrument of evil Alternatively the Beauty Revival movement advances arguments for beauty as an experience that extends primarily to sensual experience but which also calls forth mental products and cognitive and affective states evoked by that experience After reconstructing these two positions the author elaborates on the notion of beauty as a lived experience through three key moments which occur in the process of our experiencing beautiful objects These moments are a the conditions that constitute an experience of beauty b the attitudinal features most likely to lead to the experience of beauty and c the results of the experience of beauty The Revival of Beauty will be of interest to scholars and advanced students working in aesthetics history of philosophy and art history
