The Long Shadow Karl Alexander,Doris Entwisle,Linda Olson,2014-05-31 A volume in the American Sociological Association s Rose Series in Sociology West Baltimore stands out in the popular imagination as the quintessential inner city

gritty run down and marred by drugs and gang violence Indeed with the collapse of manufacturing jobs in the 1970s the area experienced a rapid onset of poverty and high unemployment with few public resources available to alleviate economic distress But in stark contrast to the image of a perpetual urban underclass depicted in television by shows like *The Wire* sociologists Karl Alexander Doris Entwisle and Linda Olson present a more nuanced portrait of Baltimore's inner city residents that employs important new research on the significance of early life opportunities available to low income populations *The Long Shadow* focuses on children who grew up in west Baltimore neighborhoods and others like them throughout the city tracing how their early lives in the inner city have affected their long term well being Although research for this book was conducted in Baltimore that city's struggles with deindustrialization white flight and concentrated poverty were characteristic of most East Coast and Midwest manufacturing cities The experience of Baltimore's children who came of age during this era is mirrored in the experiences of urban children across the nation For 25 years the authors of *The Long Shadow* tracked the life progress of a group of almost 800 predominantly low income Baltimore school children through the Beginning School Study Youth Panel BSSYP The study monitored the children's transitions to young adulthood with special attention to how opportunities available to them as early as first grade shaped their socioeconomic status as adults The authors fine grained analysis confirms that the children who lived in more cohesive neighborhoods had stronger families and attended better schools tended to maintain a higher economic status later in life As young adults they held higher income jobs and had achieved more personal milestones such as marriage than their lower status counterparts Differences in race and gender further stratified life opportunities for the Baltimore children As one of the first studies to closely examine the outcomes of inner city whites in addition to African Americans data from the BSSYP shows that by adulthood white men of lower status family background despite attaining less education on average were more likely to be employed than any other group in part due to family connections and long standing racial biases in Baltimore's industrial economy Gender imbalances were also evident the women who were more likely to be working in low wage service and clerical jobs earned less than men African American women were doubly disadvantaged insofar as they were less likely to be in a stable relationship than white women and therefore less likely to benefit from a second income Combining original interviews with Baltimore families teachers and other community members with the empirical data gathered from the authors groundbreaking research *The Long Shadow* unravels the complex connections between socioeconomic origins and socioeconomic destinations to reveal a startling and much needed examination of who succeeds and why

THE LONG SHADOW OF THE 19TH CENTURY Farish A. Noor, Stamford Raffles James Brooke John Crawford and Anna Leonowens were some of those who came from Europe or the United States to Southeast Asia in the nineteenth century and then wrote about what they saw Their writings deserve to be read now for what they truly were Not objective accounts of a Southeast Asia frozen in imperial time but rather as culturally myopic and perspectivist works that betray the subject positions of the authors themselves Reading them would

allow us to write the history of the East West encounter through critical lenses that demonstrate the workings of power knowledge in the elaborate war economy of racialised colonial capitalism Many of the tropes used by these colonial era scholars and travellers such as the indolence or savagery of the native population are still very much in use today which means we still live in the long shadow of the 19th century Matahari Books **Virginia at War, 1865** William Davis, James I. Robertson, 2012-01-01 Kent Hollingsworth captures the flavor and atmosphere of the Sport of Kings in the dramatic account of the development of the Thoroughbred in Kentucky Ranging from frontier days when racing was conducted in open fields as horse to horse challenges between proud owners to the present when a potential Triple Crown champion may sell for millions of dollars The Kentucky Thoroughbred considers ten outstanding stallions that dominated the shape of racing in their time as representing the many eras of Kentucky Thoroughbred breeding No less colorful are his accounts of the owners breeders trainers and jockeys associated with these Thoroughbreds a group devoted to a sport filled with high adventure and great hazards First published in 1976 this popular Kentucky classic has been expanded and brought up to date in this new edition
