Ransom, 2014-07-14 The Academic Scribblers offers a thoughtful and highly literate summary of modern economic thought It presents the story of economics through the lives of twelve major modern economists beginning with Alfred Marshall and concluding with Paul Samuelson and Milton Friedman In a very real sense this book picks up where Robert Heilbroner s classic *The Worldly Philosophers* leaves off Whereas Heilbroner begins with Smith and ends with Joseph Schumpeter Breit and Ransom bring the story of modern American and British economic theory up to the 1980s *The Academic Scribblers* is an elegant summary of modern economic policy debate and an enticement into a happy engagement with the dismal science of economics Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Catalog of Copyright Entries. subject this book breaks new ground in focusing its lens on a little studied aspect of Hume's thinking his understanding of money George Caffentzis makes both an intervention in the field of monetary philosophy and into Marxian conceptions of the relation between philosophy and capitalist development He vividly charts the ways in which Hume's philosophy directly informed the project of civilizing the people of the Scottish Highlands and pacifying the English proletariat in response to the revolts of both groups at the heart of the empire Built on careful historical and philosophical detective work *Civilizing Money* offers a stimulating and radical political reading of the ways in which Hume's fundamental philosophical claims performed concrete political functions
