Whose Development:

Whose Development? Emma Crewe, Elizabeth Harrison, 1999 **Speech and Language Difficulties in the Classroom** Deirdre Martin, Carol Miller, 2012-07-26 Now fully updated and revised in the light of recent developments in practice this book discusses children's language development and language difficulties in the context of the classroom. The book will help the practitioner to understand the range of language difficulties experienced by children and will assist them in planning appropriate activities with pupils, their parents and other education professionals. In particular, this second edition offers further guidance for teachers on observing children's communication skills in school, fully revised and updated chapters in the light of recent research, advice for schools on the implications of the increased emphasis on language and communication needs in the revised SEN Code of Practice 2001 and discussion about the increasingly recognized links between communication difficulties and EBD.

Multidimensional Poverty among Social Groups in Kerala K.C. Baiju, Shibu Sivaraman, 2018-07-27 This book narrates the living conditions and incidence of poverty among households belonging to the different social groups in Kerala, India. Using a micro-level study, it investigates the inter-group variations with regards to the incidence of multidimensional poverty in the sample area, the Kasaragod District, Kerala. The Regional Human Development Enabling Index (RHDEI) and the Multidimensional Poverty Index (MPI) are the main tools used for analysis here. The book highlights the incidence, intensity and disparity of multidimensional poverty in Kerala and clearly pinpoints the intra-state mirage of the achievements of Kerala in the dimensions of human development among the social groups living in the state. The book also explores the socio-cultural barriers of these marginalized groups which should become the focus and concern for policy makers and stakeholders in governance.

European Regional Policy and Development María del Carmen Sánchez-Carreira, Paulo Jorge Reis Mourão, Bruno Blanco-Varela, 2023-07-18 The shortcomings of traditional regional policies led to a major policy. Thus, regions have become more active in the design and implementation of policies following a bottom-up approach and involving the participation of the local community in strategic planning as opposed to the traditional top-down method. This book addresses regional development theories and policies with a special focus on forgotten places and raises emerging questions about recent theoretical advances as well as trends and challenges in the field. It examines two main and related issues: the crucial role of regional actors for development and the role of Forgotten Spaces. It emphasizes the spatial territorial approaches from different theoretical perspectives, underlining place-based approaches and compares the experiences of both successful and failed cases, attempting to identify lessons and policy recommendations as well as adding empirical evidence to this field. The different cases presented, which focus on Forgotten Spaces, allow the reader to assess the role of different actors for regional development as well as some sectoral approaches. While there is a clear focus on European countries with different geographical, institutional and sociocultural characteristics, the book also examines good and bad examples of regional development and policies related to forgotten places from different regions worldwide.

including developed and developing countries The book benefits from contributions from over 20 authors from different nationalities and a rich diversity of case studies approaches and methods of discussion The authors discuss practical examples and more complex theoretical approaches involving techniques of spatial analysis spatial econometrics social networks content analysis as well as regional planning techniques The book will appeal to an interdisciplinary audience and will provide academicians politicians and policy designers with original and detailed analyses
