Anna Claybourne, 2015-01-01 Written in British English Who Split the Atom explores the ways in which scientists uncovered the secrets of atoms the tiny particles of matter that make up our world *Splitting the Atom* Katie Parker, 2010 This new series allows readers to take a look at some of science's biggest concepts **Splitting the Atom** Alan Morton, 2008 Splitting the Atom investigates the theories and practical developments that led to the turning point in nuclear science the realisation that splitting the nucleus of an atom created energy that could be harnessed for good and for ill **How to Split the Atom** Hazel Richardson, 1999 Would you like to make a trip to the Moon or build your own nuclear reactor Have you ever wanted to travel through time Well here's your chance Whether you're interested in cloning budgies or building black holes the How to guides will tell you everything you need to know These hands-on guides give you step by step instructions on how to build a Moon rocket clone a sheep split the atom or make a time machine And on the way to becoming a time traveller or nuclear genius you can learn about the brilliant scientists who first made these incredible discoveries and about the slightly less brilliant scientists who didn't In How to Get to the Moon you can learn how to become a rocket scientist and Moon walking astronaut Learn how astronauts first got to the Moon in 1969 and about the recent discoveries that would make setting up a Moon base much easier Find out how to make your own space suit how to survive on the Moon and how to build a working rocket powered by liquid fuel Splitting the Atom iMinds, 2014-05-14 Learn about the process of Splitting The Atom with iMinds insightful knowledge series The possibility of the existence of the atom has fascinated scientists for centuries To begin with it was more of a logical belief than scientific fact But the belief in its existence is what motivated a number of people to develop the knowledge we now have about the atom Ernest Rutherford with the help of Ernest Walton and John Cockcroft first managed to split the atom in 1932 But they could not have done so without the wealth of information others had passed down to them In the early 19th century English scientist John Dalton first changed atomic theory from a vague idea into a more concise mathematical framework He argued that all atoms of a given element must be identical to each other and that all chemical compounds are formed as a result of a combination of two or more different kinds of atoms But one of the major hurdles was that nobody could actually see the atom iMinds brings targeted knowledge to your eReading device with short information segments to whet your mental appetite and broaden your mind **Bulletin of the Atomic Scientists**, 1958-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *From Splitting Wood to Splitting Atoms* Arthur A. Pasanen, 2021-07-15 This is the story of a boy born and raised in Bruce Mines a town of five hundred people in northern Ontario near the end of the Great Depression When Art Pasanen was just four years old nuclear fission was discovered ushering in a new age of power generation an industry which was destined to play a significant role in his life From Splitting

Wood to Splitting Atoms tracks Art s life from a shy introverted childhood to graduation from a large American university and a long distinguished career as a nuclear engineer The most impactful memories of his career are associated with his responsibility to supervise the initial start up programs of reactors both in Canada and around the world However the crux of the story can be found in Art s personal and spiritual life highlighting the ways in which divine providence helped shape him Through the crucible of adversity and hardship in childhood and following the examples of his family members Art was given the opportunity to step through many doors and make many God pleasing choices along the way
