## **The Ultimate Code:**

**The ultimate code book** Marek Kratochvíl,2001      **Cracking the Code of Our Physical Universe** Matthew M. Radmanesh,2006-05-30 What sets this book apart is the fact that it is not just another science book describing scientific facts and phenomena It would surely be redundant since that task has been done many times over with much more elegant prose and brighter narrators In this book for the first time we have undertaken the task of breaking the code of any piece of matter or natural phenomena whether it is an atom a quantum occurrence a planet a galaxy or any other perceivable thing It covers any natural phenomena ever discovered or one that will be unravelled by the future pioneers in their respective fields This book provides the trail map of any and all things that man has discovered and shows how their codes were cracked The list of discoveries is endless but prominent amongst them are the discovery of fire electricity magnetism laws of motion the solar system and planets so on and so forth This book goes beyond just pure science since it fuses philosophy with science It actually makes science a subset of philosophy or more precisely applied philosophy Just like the light phenomenon which was made to be a subset of the field of electricity by James Clerk Maxwell revolutionizing our technical world so does this book by bringing a new era of incredible developments for mankind

Ostler,2016-04-26 Stupidity What is it Is it just something we see our neighbors and members of the opposite political party do Or is it something more Why does it seem to be so universal Are there fundamentals of stupidity that can be recognized These are the questions discussed in this book It presents six fundamentals of stupidity that lead to the stupid choices that we see all around us Included among these are the belief that there are no moral values that God does not exist and that it is acceptable to become addicted and to treat others badly and be proud In the end we see that the only sure way to avoid the fundamentals of stupidity is through the saving power of Jesus Christ
