The Journalistic Interview:

The Journalistic Interview Hugh C. Sherwood, 1972 *Interviewing for Journalists* Adams Sally, 2009-09-10

Interviewing for Journalists details the central journalistic skill of how to ask the right question in the right way. It is a practical and concise guide for all print and online journalists, professionals, students, and trainees, whether writing news stories or features for newspapers and magazines, print and web. *Interviewing for Journalists* focuses on the many types of interviewing, from the routine street interview, vox pop, and press conference to the interview used as the basis of an in-depth profile. Drawing on previously published material and featuring interviews with successful columnists such as Emma Brockes, who writes for the Guardian and the New York Times, and Andrew Duncan of Radio Times, *Interviewing for Journalists* covers every stage of interviews, including research, planning, and preparation; structuring questions; the importance of body language; how to get a vivid quote; checking material and editing it into different formats. *Interviewing for Journalists* includes a discussion about the significance and importance of the interview for journalism; advice on how to handle face-to-face interviewees with politicians, celebrities, and vulnerable people; advice on dealing with PRs; how to carry out the telephone and online interview; tips on note-taking and recording methods, including shorthand; a discussion of ethical, legal, and professional issues, such as libel, doorstepping, off-the-record briefings, and the limits of editing; a glossary of journalistic terms; and notes on further reading.

The Journalist's Predicament Matthew Powers, Sandra Vera-Zambrano, 2023-08-22

Low pay, uncertain work prospects, diminished prestige. Why would anyone still want to be a journalist? Drawing on in-depth interviews in France and the United States, Matthew Powers and Sandra Vera Zambrano explore the ways individuals come to believe that journalism is a worthy pursuit and how that conviction is managed and sometimes dissolves amid the profession's ongoing upheavals. For many people, journalism represents a job that is interesting and substantial, with opportunities for expression, a sense of self-fulfillment, and a connection to broader social values. By distilling complex ideas, holding the powerful to account, and revealing hidden realities, journalists play a crucial role in helping audiences make sense of the world. Experiences in the profession, though, are often far more disappointing. Many find themselves doing tasks that bear little relation to what attracted them initially or are frustrated by institutions privileging what sells over what informs. The imbalance between the profession's economic woes and its social importance threatens to erode individuals' beliefs that journalism remains a worthwhile pursuit. Powers and Vera Zambrano emphasize that, as with many seemingly individual choices, social factors—class, gender, education, and race—shape how journalists make sense of their profession and whether or not they remain in it. An in-depth story of one profession under pressure, *The Journalist's Predicament* uncovers tensions that also confront other socially important jobs, like teaching, nursing, and caretaking.
