## **Somalia Operations Lessons Learned:**

*Somalia Operations* Carl Kenneth Allard, 1995      **Somalia Operations** Kenneth Allard, 2002 The American mission in Somalia presented U S forces with a variety of difficult operational challenges as they tried to bring peace to a country ravaged by natural and man made disasters After initial success in the summer of 1992 in restoring order and saving thousands of lives American soldiers clashed with Somali forces and were withdrawn in the spring of 1994 In the months that followed we have studied what the Somalia experience can teach us about peace missions and learned how we might improve our capabilities across the spectrum of joint operations This book represents the first time a new tool the Joint Universal Lessons Learned System is being used to evaluate an operation in its totality With it Colonel Kenneth Allard assesses the operation from its early stages of humanitarian relief through the de facto combat of peace enforcement He has organized the lessons learned for ease of reading and enlivened them with numerous concrete and anecdotal examples Although focused on the operational level the insights of this study should be of interest to strategists and policymakers as well Lessons are only truly learned when we incorporate them into our planning doctrine tactics and training a process which can take some time The author has taken the essential first step by identifying and articulating the hard lessons of Somalia with candor and objectivity But even as we resolve not to repeat mistakes we should not allow the tragic events in the latter stages of our Somalia operations to obscure the many things we did right These too are lessons ones to build upon as we prepare to meet further challenges in the complex world of peace operations Ervin J Rokke Lieutenant General United States Air Force President National Defense University      *Somalia Operations: Lessons Learned* , 1995 Partial contents include I The Operational Context The U N and Peace Operations Joint Doctrine The Effects of the Operational Environment Situations and Missions II Operational Lessons Learned 1 Planning Mandates and Missions Mission Analysis Entry and Exit Strategies Multinational Conflicts Rules of Engagement Personnel Selection and Training Joint Planning 2 Deployment Airlift Sealift Pre Positioned Shipping Administrative Requirements 3 Conduct of Operation Command and Control Mission Execution Civil Military Operations Negotiations Intelligence 4 Support Communications and Interoperability In Country Logistics Medical Media      **Somalia Operations : Lessons Learned** United States.
