The Economics of Communication and Information Donald McLean Lamberton, 1996 This wide ranging collection charts the responses of the economics discipline to

these changes initially slowly but with gathering pace as communication and information have moved from the sidelines to centre stage

The Economics of Information Networks Cristiano Antonelli, 1992 Provided in this book is a penetrating analysis of the broad array of the changes that generation introduction and diffusion of a wave of radical innovations such as new information technologies and advanced telecommunications produce on industrial structures corporate organization and firms behavior The major contribution of the book lies in highlighting the role of factors such as technological pecuniary adoption demand and network factors as a general conceptual framework for analysing technological change Building on this theoretical framework the book shows how cooperation among firms emerges as the distinctive feature of the new models of industrial organization Interdependence between firms in fact is more and more shaped by networks of complementarities localized spillovers and learning opportunities In the conclusion the policy implications for assessing the evolution of network technologies with special reference to advanced telecommunications are consequently analyzed and developed

Telecommunications in Western Asia and the Middle East Eli M. Noam, 1997 Bringing together experts on West Asian and Middle Eastern countries and providing a comprehensive view of what individual countries are doing to build a telecommunications capability Telecommunications in West Asia addresses the complicated economic and policy issues of each country s telecommunications sector The editor and his staff have skillfully integrated the contributors chapters into a coherent volume keeping the information accessible to nonspecialists Particular attention is paid to telecommunications as a link in the chain of the regional development process This study will be of interest to students and professionals in the areas of communications international telecommunications companies and country governments in Western Asia
