The Doomsday Bullet:

The Doomsday Bullet Ray Hogan, 1981 Doomsday's Last Revenge , Bombs, Bullets and the Border Patrick Mulroe, 2017-03-13 Bombs Bullets and the Border examines Irish Government Security Policy and the role played by the Garda and Irish Army along the Northern Irish border during some of the worst years of the Troubles Mulroe knits together an impressive range of sources to delve into the murky world occupied by paramilitaries and those policing the border The ways in which security forces under Fianna Fáil and Fine Gael governments secretly cooperated with the British Army and the RUC exacerbating tensions with republican groups in the border counties are meticulously examined Mulroe also reveals the devastating consequences of this approach which left a loyalist threat unheeded and the 26 counties open to attack The findings of the Smithwick Tribunal and the upheaval of Brexit have kept the issue of Irish border security within the public eye but without a complete awareness of its consequences Bombs Bullets and the Border is vital reading in understanding what a secure border entails and how it affects the lives of those living within its hinterland Apocalyptic Crimes Ronald C. Kramer, 2025-03-11 In 2023 the Bulletin of the Atomic Scientists set the iconic Doomsday Clock to ninety seconds to midnight the closest to midnight or civilization ending apocalypse it has ever been Designed at the onset of the Cold War amid new fears of atomic weapons the Doomsday Clock is a symbolic countdown to annihilation Now a generation later the world is more vulnerable than ever to the nuclear weapons it sought to warn against In Apocalyptic Crimes Ronald C Kramer reconsiders the immense danger these weapons pose to humanity examining the use threat to use and continued possession of nuclear weapons from a criminological perspective Kramer argues that any country holding on to its nuclear arsenal including the United States is committing a criminal act Offering a sharp rebuke to the common claim that nuclear stockpiles serve to deter the escalation of conflict Apocalyptic Crimes emphasizes the harm caused by the mere possession of these deadly weapons It further considers the culpability of political officials acting as representatives of the state whose threatening statements about nuclear weapons contain actions or omissions that violate specific international laws But Kramer also shows how a nuclear apocalypse might be averted and offers a pathway to disarmament Through critical analysis and a specific criminology of nuclear weapons Kramer outlines the political actions necessary to rewind the Doomsday Clock and pull the world back from the brink of destruction before the clock strikes midnight American Historical Fiction Lynda G.
