(*Classic Reprint*) Dr. A. E. Maeder,2015-06-28 Excerpt from The Dream Problem The reason for the choice of this theme as

the principal subject of discussion at to day s meeting is a publication of mine on the same subject which has called forth

opposition especially in the circle of our Vienna colleagues As I had the distinct impression that I was misunderstood I gladly

seized the opportunity to speak on the question to day There were in my opinion two principal reasons for the

misunderstanding The first reason is presumably that I did not succeed in expressing myself clearly in what I had to say on

the subject The work which appeared a year ago in the Jahrbuch had been written two and a half years ago at a time when

the problem was not very familiar to me The second important reason for my being misunderstood lies in the fact that the

point of view therein given discovers a new field of thought in psychoanalysis with which we must become acquainted This

new field is not an individual discovery for it is also to be found in the works of the last few years especially in those by Jung

Riklin Silberer and in some respects in those by Adler and others I consider it extremely important for us all that we should

have opportunity to debate together and publicly these questions that so greatly occupy us the more so as I have the

conviction that no real or necessary differences exist between us for what we of the Zurich school have accomplished is a

natural outcome of what Freud gave us The new field of which I spoke just now is analogous to the new view which opens

before the wanderer when he reaches a turning of his road About the Publisher Forgotten Books publishes hundreds of
