## **Their Nightmare:**

The Dream & the Nightmare Myron Magnet, 2000-02-01 Myron Magnet's *The Dream and the Nightmare* argues that the radical transformation of American culture that took place in the 1960s brought today's underclass overwhelmingly urban dismayingly minority into existence. Lifestyle experimentation among the white middle class produced often catastrophic changes in attitudes toward marriage and parenting, the work ethic, and dependency in those at the bottom of the social ladder and closed down their exits to the middle class. Texas Governor George W. Bush's presidential campaign has highlighted the continuing importance of *The Dream and the Nightmare*. Bush read the book before his first campaign for governor in 1994 and when he finally met Magnet in 1998 he acknowledged his debt to this work. Karl Rove, Bush's principal political adviser, cites it as a road map to the governor's philosophy of compassionate conservatism.

**Tariq and the Nightmare Kingdom** Sarwat Chadda, 2025-07-03 In this epic conclusion to *The Spiritstone Saga*, the king and queen of Cernun have sent for Tariq, now a famous seer, because their daughter has fallen into a mysterious sleep. Tariq ventures into the princess's dreams to rescue her from the monsters that have infiltrated her slumber and attacked the whole northern kingdom. With the help of his friends Livia and Artos, can Tariq find the third spiritstone and use its powerful magic to save the princess and the entire world from the forces of evil? This richly imagined adventure blends themes of classic fantasy and world mythology with a timely message about protecting the environment.

*Insectopedia* Hugh Raffles, 2011-03-22 A *New York Times* Notable Book, a stunningly original exploration of the ties that bind us to the beautiful, ancient, astoundingly accomplished, largely unknown, and unfathomably different species with whom we share the world. For as long as humans have existed, insects have been our constant companions. Yet we hardly know them, not even the ones we're closest to: those that eat our food, share our beds, and live in our homes. Organizing his book alphabetically, Hugh Raffles weaves together brief vignettes, meditations, and extended essays, taking the reader on a mesmerizing exploration of history and science, anthropology, and travel, economics, philosophy, and popular culture. *Insectopedia* shows us how insects have triggered our obsessions, stirred our passions, and beguiled our imaginations.

**The Dream Experience** Milton Kramer, 2013-08-21 *The Dream Experience* provides the mental health professional with a systematic, scientific basis for understanding the dream as a psychological event. Milton Kramer's extensive research, along with the findings of others, establishes that dreams are structured, not random, and linked meaningfully to conscious events in daily life and past memories. The book explores this link between dreams and consciousness, providing a review of information about normative dreaming, typical or repetitive dreams, and nightmares, while also showing how mental health professionals can use dream content in therapy with clients. Kramer's book is an illuminating description of dreaming for dreamers, therapists, and neuroscientists.

**Intimacy and the Anxieties of Cinematic Flesh** Patrick Fuery, 2023-01-26 In a return to Edmund Husserl and Sigmund Freud, *Intimacy and the Anxieties of Cinematic Flesh* explores how we can engage these foundational thinkers of phenomenology and

psychoanalysis in an original approach to film The idea of the intimate spectator caught up in anxiety is developed to investigate a range of topics central to these critical approaches and cinema including flesh as a disruptive state formed in the relationships of intimacy and anxiety time and the formation of cinema's enduring objects space and things the sensual the real and the unconscious wildness disruption and resistance and the nightmare reading phantasy across the critical fields Along with Husserl and Freud other key thinkers discussed include Edith Stein Roman Ingarden Maurice Merleau Ponty Mikel Dufrenne in phenomenology Melanie Klein Ernest Jones Julia Kristeva and Rosine Lefort in psychoanalysis Framing these issues and critical approaches is the question how might Husserlian phenomenology and Freudian Lacanian psychoanalysis so often seen as contradistinctive be explored through their potential commonalities rather than differences In addressing such a question this book postulates a new approach to film through this phenomenological psychoanalytic reconceptualization A wide range of films are examined not simply as exemplars but to test the idea that cinema itself can be a version of critical thinking
