**Bertha Eleanor TREBEIN, Theodor
Fontane**

Theodor Fontane:

Theodor Fontane Gordon Alexander Craig, 1999 First published in Germany to popular and critical acclaim this is a unique portrait of the life and work of Theodor Fontane the greatest German novelist of his age as well as a major poet and theater critic and much loved travel writer Gordon A Craig one of the foremost scholars of German history interpolates a cohesive historical biography of Fontane with his own reflections on the art culture and politics of Fontane s world The ideas and impressions of Fontane and Craig echo one another throughout the book in compelling and fascinating ways Fontane s travel accounts of Scotland and Prussia are enriched by Craig s discussion of Germany s increasingly national vision of itself and the world at the time of unification Similarly Craig s mastery of German military history dovetails remarkably well with Fontane s reportage on Germany s wars with Denmark Austria and France Interesting are Fontane s ruminations over his great contemporary Otto von Bismarck whom he revered as founder of the Reich but whose policies he feared would in the end be self defeating Although Fontane s Wanderings through the Mark Brandenburg and his novels are more widely read in Germany today than they were in his own time and although his masterpiece *Effi Briest* was the basis for a famous Fassbinder film Fontane remains little known in the English speaking world Theodor Fontane is the ideal introduction to this major European writer a master of social analysis and one of the great letter writers of his age

Fontane in the Twenty-first Century John B. Lyon, Brian Tucker, 2019

Assesses the relevance of the works of Fontane perhaps the foremost German novelist between Goethe and Mann for the twenty first century Theodor Fontane remains a canonical figure in German literature the most important representative of poetic realism and likely the best German language novelist between Goethe and Mann yet scholarly attention to his works often lags behind his stature at least in the English speaking academy This volume coinciding with Fontane s 200th birthday in 2019 assesses the relevance of his works for us today and also draws attention to the most current English language research Much has changed in the last two decades in critical theory and the volume highlights how new methodological approaches and new archival research can update our understanding of Fontane s works Although his novels are famously rooted in the details of quotidian life in nineteenth century Germany they also reflect larger historical transformations that resonate with our world today e g financial crisis class conflict changing gender roles and migration and so speak to contemporary critical interests The volume s contributors draw on literary and cultural studies approaches including gender and sexuality studies emotion studies transnationalism and globalization media and visual studies rhetorical criticism paratextual criticism and digital humanities Their contributions survey a wide range of Fontane s literary production in order to speak to both German and non German audiences in the twenty first century Contributors James N Bade Russell A Berman Katharina Adeline Engler Coldren Todd Kontje John B Lyon Ervin Malakaj Nicolas von Passavant Lynne Tatlock Christian Thomas Brian Tucker Michael J White Holly
