Sweetening and Intensification Amy L. Allocco,Xenia Zeiler,2025-10-01 Explores how these two currents are shaping the contours of contemporary Hindu worship myth and visual and material culture in contemporary South Asia and its diasporas This volume focuses on two alternately converging and diverging currents that increasingly shape Hindu traditions namely sweetening and intensification Sweetening is understood here to include the softening of deities iconographies the standardization of religious narratives and the sanitization of ritual practices Alongside this current exists intensification which is understood as an insistence on the continuing relevance of rigorous visceral and frequently stigmatized practices and beliefs often in response to new circumstances and challenges This volume emphasizes an inclusive approach by bringing these two currents into sustained conversation As Hindu traditions are increasingly expanding into new settings including but not limited to new diaspora and new media contexts the long established yet ever changing scale of sweet neutral spicy unfolds in new ways as well The essays in this volume delineate these developments across diverse Hindu geographic linguistic ethnic and social contexts textual and theological traditions and ritual and media formats Indeed the volume s multidisciplinary approach shows how these processes intersect with and even drive contemporary re negotiations

wakefulness has eroded her senses leaving her craving the solace of sleep a solace she finds only vicariously through the dreams she extracts a bittersweet echo of a world lost One fateful night while connected to Theresa Hernandez a Sleeper known for her vivid dream narratives Rose stumbles upon a dreamscape unlike any she has ever traversed It isn't the fragmented chaos of the typical subconscious but a cohesive meticulously crafted reality Theresa beneath an amethyst sky converses with beings of pure light wielding powers that defy the very fabric of Rose's waking world This encounter rattles Rose to her core leaving her questioning the nature of reality itself the boundaries between the tangible and the intangible blurring before her eyes Alex initially rooted in his skepticism attributes the anomaly to a glitch in the extraction process a momentary aberration in the complex dance of technology and the human mind But as subsequent extractions unveil similar landscapes variations of the same cities the same people existing under different celestial bodies governed by different physical laws a startling realization dawns on them these aren't mere dreams they are glimpses into parallel realities windows into worlds beyond their comprehension This paradigm shift transforms Rose's focus from solace to scientific inquiry from profit to profound exploration The dreams she once sought for personal respite now represent keys to a vast multiversal tapestry threads of an intricate cosmic design Their groundbreaking discovery however doesn't go unnoticed Kristin Strickland a ruthless corporate magnate who holds the dream market in her iron grip sees in these alternate realities a potential for unimaginable power and exploitation a chance to reshape the very fabric of existence to serve her own avaricious desires Kristin fueled by an insatiable thirst for control begins to stalk Rose and Alex her agents weaving a web of surveillance around them tightening the noose around their groundbreaking research
