## Something Else:

*Catholic Theology* Frederick C. Bauerschmidt, James J. Buckley, 2016-03-28 Introduction to Catholic Theology is an accessible but in depth examination of the ways in which Catholic theology is rooted in and informs Catholic practice Weaves together discussion of the Bible historical texts reflections by important theologians and contemporary debates for a nuanced look at belief and practice within the Catholic faith Provides an overview of all major theological areas including scriptural historical philosophical systematic liturgical and moral theology Appropriate for students at all levels assuming no prior knowledge yet providing enough insight and substance to interest those more familiar with the topic Written in a dynamic engaging style by two professors with more than 50 years of classroom experience between them **Peter Lombard** Philipp W. Rosemann, 2004-04-01 Peter Lombard is best known as the author of a celebrated work entitled Book of Sentences which for several centuries served as the standard theological textbook in the Christian West It was the subject of more commentaries than any other work of Christian literature besides the Bible itself The Book of Sentences is essentially a compilation of older sources from the Scriptures and Augustine down to several of the Lombard s contemporaries such as Hugh of Saint Victor and Peter Abelard Its importance lies in the Lombard s organization of the theological material his method of presentation and the way in which he shaped doctrine in several major areas Despite his importance however there is no accessible introduction to Peter Lombard s life and thought available in any modern language This volume fills this considerable gap Philipp W Rosemann begins by demonstrating how the Book of Sentences grew out of a long tradition of Christian reflection a tradition ultimately rooted in Scripture which by the twelfth century had become ready to transform itself into a theological system Turning to the Sentences Rosemann then offers a brief exposition of the Lombard s life and work He proceeds to a book by book examination and interpretation of its main topics including the nature and attributes of God the Trinity creation angelology human nature and the Fall original sin Christology ethics and the sacraments He concludes by exploring how the Sentences helped shape the further development of the Christian tradition from the twelfth century through the time of Martin Luther Numbers IX., X., XI., XII., XIII. of addenda and corrigenda to the edition of the Hippolytus Stephanéphoros of Euripides, by ...
