Realism and Strangeness Nicholas Mansfield, 1992 **The Doubleman** Christopher J. Koch, 1992 Revised edition of a novel first published in 1985 and winner of the 1986 Miles Franklin Award It includes a key scene in the final chapter omitted from previous editions and the correction of numerous typographical errors A new introduction by the author is included His previous works include the novel The Year of Living Dangerously 1978 which won the National Book Council Award and the Age Book of the Year and a collection of essays Crossing the Gap 1987 *The Double Man* Freeman Benjamin Dowd, 1895 Water from the Moon Jean-Francois Vernay, 2007 Author of six novels Christopher John Koch born in 1932 is one of Australia s leading novelists who enjoys worldwide recognition Koch s writing has its finger on the pulse of today s changing society Not only does his work fall within a universal stream but it also stands out as a production of its own built like a puzzle with distinct pieces Through fiction Koch explores other genres the fairy tale drama poetry to the point of producing multi faceted works which challenge classification In spite of the constant renewal of his settings for action one notices the presence of a main thread which runs through Koch s fiction the antipodean and ambiguous relationship between illusion and reality This theoretically informed monograph provides a book by book analysis of the novelist s oeuvre and gives a full picture of his Weltanschauung It is valuable reference for scholars in Australian Studies as well as those researching postcolonial psychoanalytic and literary theories

The Politics and Aesthetics of Refusal Caroline Hamilton, Michelle Kelly, Elaine Minor, 2009-03-26 The Politics and Aesthetics of Refusal is an eclectic collection of essays from emerging academics who engage with the notion of refusal both as the embodiment of a resistance to conventional boundaries between academic disciplines and as a concept with an underlying negative or reactive force that can be widely interpreted and applied The applications of refusal outlined in this volume ranging from activism and the politics of cultural production through to problems of identity and knowledge classification raise questions about often elided relationships of agency and complicity in routine experience The sense of refusal that emerges from this book is perhaps most easily classified by what it is not namely a prescriptive conclusive or

unified account of what it is to reject react or work against any particular instance of theory or practice in any given domain The value of a thematically oriented collection like this is its ability to work across disciplines media and philosophical frameworks rather than limiting its focus to a narrow territory According to Herbert Marcuse refusal must not only be the guiding principle for all artistic creation it must also be a manifestation of artistic creation itself With this volume we have attempted to compose a collection which is not only theoretically guided by refusal but practically informed by it as well The collection in itself constitutes we hope a constructive rejection of the usual constrictions of discipline and approach placed upon new scholars This rich collection of essays on the political aesthetic and ethical dimensions of that form of social action called refusal is an important contribution to our understanding of the tensions and contradictions of contemporary culture
