World Development:

Poverty and Neoliberalism Ray Bush, 2007-04-20 Why do so many people worldwide suffer hunger and poverty when there is enough food and other resources globally to prevent it This book shows how famine and food insecurity are an essential part of modern capitalism Although trade debt relief and development initiatives are important they do not alter the structure of the global economy and poverty continues to be created by processes like privatisation trade liberalisation and market reform Despite the end poverty rhetoric of the World Bank and the G8 these high levels of poverty sustain Western wealth and power Is there any hope for change Using case studies from Egypt and North Africa Nigeria Sudan and elsewhere in sub Saharan Africa Ray Bush illustrates that there is resistance to neoliberal policies and that struggles over land mining and resources can shape real alternatives to existing globalisation

The Global Emerging Market Vladimir Kvint, 2010-04-26 Despite the growing importance of the global emerging market GEM for the world's business economies and politics it has received a relatively scant amount of academic attention in business and economics courses This textbook is the first to focus on the GEM and its strategic and economic characteristics The Global Emerging Market Strategic Management and Economics describes the fundamental economic base and trends of the global marketplace GEM as well as business and management development for the conditions of emerging market countries EMCs Focusing on the formation of a strategic mindset and the decision making process it explains how to analyze the basic economic factors and the global order especially in times of crisis This text also explains how to classify countries related to this new market of tremendous opportunities Furthermore the book includes recommendations on how to develop entry and exit strategies for the GEM work in it and create efficient management systems Features include Extensive tables charts and graphs illustrating the strategic considerations of the GEM and the GEM End of chapter study questions Practical examples based on the author's involvement in the development of the GEM from both sides of the international transactions This academic book is the ideal guide for current business leaders and students on how to make strategic symmetric and asymmetric time sensitive decisions related to the GEM

Fatal Indifference Ronald N. Labonte, 2004 Jointly publ by IDRC and The University of Cape Town Press

The Battle for Asia Mark T. Berger, 2004-03-01 Asia has long been an ideological battleground between capitalism and communism between nationalism and Westernisation and between the nation state and globalization This book is a history of the Asian region from 1945 to the present day which delineates the various ideological battles over Asia's development Subjects covered include theories of development decolonization US political and economic intervention the effects of communism the end of the Cold War the rise of neo liberalism Asia after the crisis Asia in the era of globalisation Broad in sweep and rich in theory and empirical detail this is an essential account of the growth of Asian miracle and its turbulent position in the global economy of the twenty first century
