salvation The modern people will either transform their energy by raising it and spiritually evolving or they will commit suicide However this highly effective methodology we offer to humanity is the tool of social spiritual evolution Use it with joy

The Metaphysics of Becoming Thomas Padiyath, 2014-08-22 This study attempts to elucidate a possible meeting point of the traditions of Eastern and Western metaphysical thinking In discussing Whitehead s and Aurobindo s views on being and becoming it seeks the possibility of a better engagement between the East and the West in the light of the philosophical insights It is an initiation into the Sitz im Leben of Whitehead s philosophy and his general thought pattern It carries a perceptive analysis to show the clear primacy of Becoming or Process in Whitehead that extends even to the Divine It also highlights Aurobindo as a unique Indian Philosopher who articulated Indian thought in Western categories He was able to integrate the evolutionary theory of the West with the Indian understanding of becoming The

relationship between God and Creativity and Sachchidananda and the Supermind is studied within the context of Enlightenment and Modernity and the way of doing philosophy in the West and in the East **Metaphysics of Consciousness** Ramesh Chandra Pradhan,2020-09-03 This book explores the transition from the mind to the Supermind within the scope of an evolutionary metaphysics The idea of Supermind has not been discussed so far in the mainstream philosophy of mind and consciousness This book will give a new approach to the study of consciousness from the Indian vedantic perspective which has introduced the idea of Supermind especially in the works of Sri Aurobindo The book also undertakes a sustained critique of the contemporary theories of mind which have promoted mostly a mechanistic and naturalistic theory of mind and consciousness The book is meant for the researchers who are engaged in the study of consciousness and for those who are interested in the philosophy of mind in general This book will serve the purpose of the much needed counter perspective to the contemporary theories of mind working broadly within the materialist traditions
