[Real Essays with Readings with 2009 MLA Update](#) Susan Anker, 2009-06-23 Click here to find out more about the 2009 MLA Updates and the 2010 APA Updates. *Real Essays with Readings* is the essay level book in Susan Anker's highly successful series of writing texts that motivate students with their message that writing is an essential skill in college and in real life, and that this skill is achievable. Anker's advice, examples, and assignments show the relevance of writing to all aspects of students' lives, and profiles of former students prove that success is attainable. Like all the books in the Anker series, *Real Essays* presents writing in logical, manageable increments: step-by-step writing guides and a focus on the four basics of each mode of writing keep students from becoming overwhelmed. *Real Essays* maintains its emphasis on what really matters by focusing on the four most serious errors: fragments, run-ons, subject-verb agreement problems, and verb form problems. *Real Essays* gives students what they need to succeed in college and become stronger academic writers.

[Resources in Education](#), 1998 [Writing as a Method for the Self-Study of Practice](#) Julian Kitchen, 2022-01-01 This book focuses on the writing process in the self-study of teaching and teacher education practices. It addresses writing as an area in which teacher educators can develop their skills and represents how to write in ways that are compatible with self-study's orientations towards the inquiry, both personal and on practice. The book examines effective self-study writing with chapters written by experienced self-study practitioners. In addition to considering elements of writing as a method for the self-study of practice, it delves into the cognitive processes of real writers making explicit their writing practices. Practical suggestions are connected to the lived experiences of self-study practitioners making sense of their field through the process of writing. This book will be of interest to doctoral and novice self-study writers and experienced authors seeking to develop their practice. It demonstrates that writing as a method of inquiry in self-study and beyond can be learned, modeled, and taught.
