far better at dealing with external tangible fears than our own imagined ones We purchase insurance watch the safety demonstrations know how to use the Heimlich Maneuver But those are responses to rare and often never occurring emergencies Our mythical and monstrous fears are daily dark clouds masking our talents no less than depression or guilt It s time to realize there is no monster under the bed never has been and never will be without having to check nightly and without needing a weapon on the night table Picture yourself freed of restraints that you could never properly articulate and were loath to discuss but which you carried on your shoulders constantly a dead weight nonetheless Essentially this book is for entrepreneurs business owners and those who seek a better position for themselves and their talents but who procrastinate delay and hang back It s about isolating and overcoming the internal fears that we generate every day like a geyser triggered by time events or shifts in the environment We are our own worst enemies and we ignore the practical remedies to escape fear because we use our energies instead on blaming everyone else [Virginia Journal of Education](#),2003
