Teaching Learning Peace:

Learning Peace Betty A. Reardon,Eva Nordland,Robert William Zuber,1994-04-12 The most striking feature of this book is the fact that a group of highly qualified scholars and educators collaborated before the dissolution of the Soviet Union exchanging ideas and practical programs for teaching ecological and cooperative education They modeled the process they advocate They changed their own thinking to understand the thinking of others They couched their concerns in a framework of human rights political and social responsibility and practical transformations of national educational approaches that are often myopic and competitive While accenting some positive educational trends within their national borders they also criticized cultural and educational limitations Anne Shepard Associate Superintendent of Schools Catholic Diocese of Kansas City St Joseph Missouri *Promoting Global Peace and Civic Engagement through Education* Pandey, Kshama,2016-05-04 It is easy to see that the world finds itself too often in tumultuous situations with catastrophic results An adequate education can instill holistic knowledge empathy and the skills necessary for promoting an international coalition of peaceful nations Promoting Global Peace and Civic Engagement through Education outlines the pedagogical practices necessary to inspire the next generation of peace bringers by addressing strategies to include topics from human rights and environmental sustainability to social justice and disarmament in a comprehensive method Providing perspectives on how to live in a multi cultural multi racial and multi religious society this book is a critical reference source for educators students of education government officials and administration who hope to make a positive change **EDUCATION FOR WORLD PEACE Issues, Challenges and New Directions** Dr. Santosh Kumar Behera,Lamina Kamiludeen Omotoyosi, VALUE EDUCATION, PEACE AND HUMAN RIGHTS Dr. Akhtar Hossain ,2026-03-17 Introduction Time and Tide wait for None The above proverb is widely known which means that time and the currents of the river wait for no one If you look closely at the noisy world burdened with population it can be seen that everything in this world is moving at a certain speed In the language of psychology and social science this dynamic state refers to change that is everything is changing and different people observe and behave in terms of this change And for this reason two words are widely used in society namely 1 Positive Approach 2 Negative Approach **Learning Peace** Betty A. Reardon,Eva Nordland,1994-04-12 *Critical Issues in Peace and Education* Peter Pericles Trifonas,Bryan Wright,2014-04-04 This collection asks theorists and educational practitioners from around the world influenced by the schools of feminist pedagogy critical pedagogy anti racist or postcolonial pedagogy and gay and lesbian pedagogy to reflect upon the possibilities of articulating a curriculum of difference that critically examines the cross cultural issues of peace and education that are at the forefront of global education issues today Contributors examine the conceptualizations of peace and education within between and across cultures through the conceptualization of pedagogical possibilities that create an openness toward the horizons of the other within communal formations of difference permeating the public sphere They take up new ways of questions related to globalization difference

community identity peace democracy sexuality ethics conflict politics feminism technology language rights cultural politics Marxism and deconstruction that have a vast literary history in and outside the area of education This volume makes a significant contribution to the question of difference and its quintessential role in peace education for the new millennium
