Three Cities:

A Tale of Three Cities D. K. Matthews, 2024-08-20 A central question for Judeo Christian faithful is Are we living in the age of antichristism or kingdom influence Can we salt and light entire cities and civilizations as Martin Luther King Jr hoped or with D L Moody should we simply save as many as we can from our rapidly sinking planet Over the years Christians have wrestled with the question and reached different conclusions Augustine s and Oliver O Donovan s answer to the question birthed The City of God and The Desire of Nations Miguez Bonino s and Grace Ji Sun Kim s Marxist influenced liberationist answers produced Toward a Christian Political Ethics and the post truth Intersectional Theology Former socialist Michael Novak s plea was to revive The True Spirit of Democratic Capitalism Jonathan Cahn and Frank Peretti by contrast predicted that we have entered the age of This Present Darkness amidst The Return of the Gods Peretti s and Cahn s wildly popular future visions built upon Hal Lindsey s dated assurance and false prediction that true believers would be raptured in the last decade of The Terminal Generation 1980s Douglas Matthews offers a new route through the maze and discerningly answers this perennial question by boldly offering a Third City future vision option for effective kingdom influence amidst accelerating global antichristism

A Tale of Three Cities John Lynch, 1998-07-13 The city of Belfast tends to be discussed in terms of its distinctiveness from the rest of Ireland an industrial city in an agricultural country However when compared with another British industrial port such as Bristol it is the similarities rather than the differences that are surprising When these cities are compared with Dublin the contrasts become even more painfully evident This book seeks to explore these contrasting urban centres at the start of the twentieth century

The Emerald Handbook of Smart Cities in the Gulf Region Miltiadis D. Lytras, Afnan Alkhaldi, Sawsan Malik, 2024-11-22 This definitive reference edition uniquely integrates urban planning advanced computational and government policy making aspects with a focus on disseminating the momentum of Smart Cities Research in the Gulf Region

Taking Sustainable Cities Seriously, second edition Kent E. Portney, 2013-01-11 A theoretically driven comparison of sustainability programs in American cities updated with the latest research and additional case studies Today most major cities have undertaken some form of sustainability initiative Yet there have been few systematic comparisons across cities or theoretically grounded considerations of what works and what does not and why In Taking Sustainable Cities Seriously Kent Portney addresses this gap offering a comprehensive overview and analysis of sustainability programs and policies in American cities After discussing the conceptual underpinnings of sustainability he examines the local aspects of sustainability considers the measurement of sustainability and offers an index of serious sustainability for the fifty five largest cities in the country examines the relationship between sustainability and economic growth and discusses issues of governance equity and implementation He also offers extensive case studies with separate chapters on large medium size and small cities and provides an empirically grounded analysis of why some large cities are more ambitious than others in their sustainability efforts This second edition has been updated throughout with new material

that draws on the latest research It also offers numerous additional case studies a new chapter on management and implementation issues and a greatly expanded comparative analysis of big city sustainability initiatives Portney shows how cities use the broad rubric of sustainability to achieve particular political ends and he dispels the notion that only cities that are politically liberal are interested in sustainability Taking Sustainable Cities Seriously draws a roadmap for effective sustainability initiatives
