## **This Is Fascinating:**

*History Is Fascinating* Homer Adams, 2008-09 Prolific author Homer J Adams whose previously published books included suggestions for college students and wisdom for senior citizens now takes on a much larger and more difficult subject history People don't automatically like history writes the author but they love a good story History is a story or rather a collection of stories about people and how they lived and loved These accounts are shot through with humor and human interest which for too long has been minimized in the study of history In his new offering *History Is Fascinating And I Can Prove It* Mr Adams's selections are rich in colorful anecdotes and vivid imagery He is also a talented storyteller with a love for creating distinct character portrayals that readers can easily embrace Therein lies the readability of these historical references readers will easily absorb the storyline while becoming enchanted with the story itself and its characters For instance in the World History section there are engaging vignettes on Queen Elizabeth's Toothache Columbus and the Moon's Eclipse and Galileo Elsewhere the section on the Nineteenth Century includes *Dirty Politics 1824* and *Yankee Inventiveness* while the Current Century section includes an homage to the victims of Hurricane Katrina I hope that these brief historical accounts writes Mr Adams will add to the reader's knowledge of past events and the way people lived Book jacket *Wow! branch of contemporary philosophical ethics that goes by the label metaethics concerns certain second order questions about  
ethics questions not in ethics but rather ones about our thought and talk about ethics and how the ethical facts insofar as  
there are any fit into reality Analogously the branch of contemporary philosophy of law that is often called general  
jurisprudence deals with certain second order questions about law questions not in the law but rather ones about our thought  
and talk about the law and how legal facts insofar as there are any fit into reality Put more roughly and using an alternative  
spatial metaphor metaethics concerns a range of foundational questions about ethics whereas general jurisprudence  
concerns analogous questions about law As these characterizations suggest the two sub disciplines have much in common  
and could be thought to run parallel to each other Yet the connections between the two are currently mostly ignored by  
philosophers or at least under scrutinized The new essays collected in this book are aimed at changing this state of affairs  
Dimensions of Normativity collects together works by metaethicists and legal philosophers that address a number of issues  
that are of common interest with the goal of accomplishing a new rapprochement between the two sub disciplines      *The*
