## **Tolerance Graphs:**

**Tolerance Graphs** Martin Charles Golumbic, Ann N. Trenk, 2004-02-12 The study of algorithmic graph theory and structured families of graphs is an important branch of discrete mathematics It finds numerous applications from data transmission through networks to efficiently scheduling aircraft and crews as well as contributing to breakthroughs in genetic analysis and studies of the brain Especially important have been the theory and applications of new intersection graph models such as generalizations of permutation graphs and interval graphs One of these is the study of tolerance graphs and tolerance orders This book contains the first thorough study of tolerance graphs and related topics indeed the authors have included proofs of major results previously unpublished in book form It will act as a springboard for researchers and especially graduate students to pursue new directions of investigation With many examples and exercises it is also suitable for use as the text for a graduate course in graph theory

### **Topics in Algorithmic Graph Theory**

Lowell W. Beineke, Martin Charles Golumbic, Robin J. Wilson, 2021-06-03 Algorithmic graph theory has been expanding at an extremely rapid rate since the middle of the twentieth century in parallel with the growth of computer science and the accompanying utilization of computers where efficient algorithms have been a prime goal This book presents material on developments on graph algorithms and related concepts that will be of value to both mathematicians and computer scientists at a level suitable for graduate students researchers and instructors The fifteen expository chapters written by acknowledged international experts on their subjects focus on the application of algorithms to solve particular problems All chapters were carefully edited to enhance readability and standardize the chapter structure as well as the terminology and notation The editors provide basic background material in graph theory and a chapter written by the book's Academic Consultant Martin Charles Golumbic University of Haifa Israel provides background material on algorithms as connected with graph theory
