**Semantic Primes and Universal Grammar** Bert Peeters, 2006-01-01 This volume is part of a research program which started with the publication in 1972 of Anna Wierzbicka s groundbreaking work on Semantic Primitives The first within the program to focus on a number of typologically similar languages it proposes a French Spanish Portuguese and Italian version of the Natural Semantic Metalanguage NSM elaborated over the years by Wierzbicka and colleagues Repetition is avoided through teamwork a number of authors working on the languages under examination have had equal input in a set of five papers dealing with distinct parts of the metalanguage Some of the findings presented here invite us to have a fresh look at what has already been achieved and to amend some of the working hypotheses of the NSM approach accordingly The volume also contains six case studies on Italian sfogarsi Portuguese saudades Spanish crisis French certes Spanish expressions of sincerity and Italian and Spanish diminutives respectively

**Constructions in French** Myriam Bouveret, Dominique Legallois, 2012-12-19 The book *Constructions in French* is the first collected volume to focus on French syntax from a constructionist perspective It has been written with two kinds of readers in mind for readers interested in the relationship between the French linguistic tradition and cognitive linguistics and for readers who would like to examine how constructional analysis can be applied to a variety of French language phenomena The eleven papers illustrate the insights generated by combining lexicalist and constructionist approaches focusing on syntax as a dynamic system and using corpus data from a variety of speech genres The contributions provide new findings about French usage trends in linguistics and in psycholinguistics including insights into new nonstandard and poorly studied constructions

*Meaning and Universal Grammar* Cliff Goddard, Anna Wierzbicka, 2002-01-01 Volume one of a set of studies that is founded on the idea that universal grammar is based on indeed inseparable from meaning The theoretical framework is the natural semantic metalanguage NSM approach originated by Anna Wierzbicka and developed in collaboration with Cliff Goddard

**Clarity Is Divine** Kelsi Marie, 2013-11 *Clarity Is Divine* is a true story of survival and the resurrection of hope after a damaged emotional past collides with an indecent proposal Too often progress comes to a screeching halt when life doesn t go as planned How do we recover when life events are beyond our control and one phone call creates a gulf between two worlds before and after Upon the realization that life would never be the same Kelsi journeyed through the pitfalls of grief bewilderment and depression to a place of resurrected faith hope and love Herein is the story of a young woman s journey through emotional trauma layered betrayals and her discovery of the grace that strengthened her to clasp her empty hands together and ask God to reveal the purpose behind the

pain and the lessons to be learned as He was returned to His rightful position on the throne of her heart On this journey she learned that no matter how bad it felt how wounded it left her or how much time she had lost she still had a date with destiny to look forward to In her story find the insight courage and faith to be healed and restored to a divine sense of clarity
