Trending Automation Remote Work:

Ethical Artificial Intelligence in Power Electronics Tarandeep Kaur Bhatia, Salma El Hajjami, Keshav Kaushik, Gayo Diallo, Mariya Ouaisa, Inam Ullah Khan, 2024-08-01 This book focuses on the techniques of artificial intelligence that are mainly used in the power electronics field for the optimization of lost vehicle power. With the intention of optimizing the powerful energy of the vehicles and producing reliable energy, the most efficient methods, algorithms, and strategies of ethical artificial intelligence (AI) are being applied. By employing machine learning methods, the optimization of power energy in vehicles can be quickly recovered and managed efficiently. In today's bustling world, power energy is indispensable for progress, yet in congested Vehicular Ad hoc Networks (VANETs), vehicles often face power depletion and decreased efficiency. This book explores these challenges encompassing not only power but also other critical power electronics within vehicles. We aim to introduce innovative approaches leveraging ethical AI methods to optimize energy performance in the face of these difficulties. Through this exploration, we seek to provide practical insights into navigating congested VANET environments while upholding ethical principles in technological advancements. Our book will discuss the current power energy concerns faced by vehicles and also contribute a novel strategy to overcome those concerns. The employment of ethical AI in vehicular power energy will undoubtedly improve the effectiveness and production of vehicles. International conference on Navigating the Digital Revolution : Embracing technology for business growth in global perspectives ICNDRGB - 2025 S. Shanthakumari, B. Mythili, Dr. C. Kothaiandal, S. Poornima Devi, A. Parameswar, M. Devipriya, 2025-06-18 We are pleased to present this book for the International Conference on Navigating the Digital Revolution Embracing Technology for Business Growth in Global Perspectives ICNDRGB 2025. The purpose of this conference is to bring together researchers, professionals, and students to share their ideas and studies on how digital technologies are transforming business today. This book includes selected papers and articles that discuss important trends such as digital innovation, online business practices, data-driven decision making, and the role of technology in global markets. Each contribution offers useful insights that can help readers understand how businesses are adapting to rapid technological change. We thank all the authors, reviewers, and organizing committee members for their hard work and support in preparing this volume. We hope that this book will serve as a helpful resource for anyone interested in technology and business growth. **Current and Emerging Trends in Aging and Work** Sara J. Czaja, Joseph Sharit, Jacquelyn B. James, 2019-09-13 This timely volume provides an up-to-date and comprehensive summary about what is known about aging and work and addresses the challenges and opportunities confronting older workers and organizations. The authors describe current and emerging topics related to work and aging adults, such as working in teams, the increasing diversity of the labor force, work and caregiving, the implications of technology for an aging workforce, and health and wellness issues. The authorship is international; the authors are renowned for their respective work in the topical areas and represent a broad range of disciplines within academia, as well as offer perspectives.
