Innovative Trends in Teacher Education for the 21st Century Dr. S. Bella Wiselet and L. Vinila, 2019-04-14

Education seeks to provide the intellectual enlightenment and the spiritual emancipation in the search for a better existence for all life on earth. Teacher education must target skills for the 21st Century and beyond them to address the needs of a knowledge society. These days teacher's education system is facing a problem of inaptness and irrelevance. There is a visible gap between how students live and how they learn. Schools and colleges have struggled to keep the pace with the rate of change in students' lives inside and outside the educational institution. Innovative educational practices support the development of new capabilities and surfacing stumbling blocks on the road to innovation implementation. The implementation of learning that promotes the development of general capabilities and deep learning approaches in students is at the centre of the paradigmatic changes.
