*Love Does Not Control* Thomas Jay Oord, John Loppnow, Annie DeRolf, Christy Gunter, Lon Marshall, 2023-04-03 That love does not control seems obvious to many people And yet the temptation to control often with good motives is strong The long term results of yielding to this temptation damage everyone Contributors to *Love Does Not Control* explore uncontrolling love and a vision of God as uncontrolling They do so from their perspectives as therapists psychologists and counselors Writers ponder what uncontrolling love might mean for human healing Open and relational theology operates as the underlying framework for most contributors That theology fits nicely with the belief that love is uncontrolling Open and relational theology rethinks divine power in light of love and postulates what it might mean for creatures to imitate their Creator's uncontrolling love The essays in *Love Does Not Control* are diverse Readers may discover some differences of opinion as they move from essay to essay But contributors share in common the quest to explore what uncontrolling love means for issues in counseling psychology and or therapy These essays have a power that goes beyond mere theoretical reflection The ideas in these pages have the capacity to transform our living And even reading *Love Does Not Control* has the potential to become an exercise in uncontrolling love

**America Redux: Visual Stories from Our Dynamic History** Ariel Aberg-Riger, 2023-05-02 A critical unflinching cultural history and fierce beacon of hope for a better future *America Redux* is a necessary and galvanizing read What are the stories we tell ourselves about America How do they shape our sense of history cloud our perceptions inspire us *America Redux* explores the themes that create our

shared sense of American identity and interrogates the myths we've been telling ourselves for centuries. With iconic American catchphrases as chapter titles, these twenty-one visual stories illuminate the astonishing, unexpected, sometimes darker sides of history that reverberate in our society to this very day, from the role of celebrity in immigration policy to the influence of one small group of white women on education to the effects of progress on housing and the environment to the inspiring force of collective action and mutual aid across decades and among diverse groups. Fully illustrated with collaged archival photographs, maps, documents, graphic elements, and handwritten text, this book is a dazzling, immersive experience that jumps around in time and will make you view history in a whole different light. **Hidden Hooks** Skye Alden, 2025-09-03

Stories shape how we see the world. They steer our choices and quietly build the rules we live by. From ancient marks on clay to the flicker of screens, stories have always been more than just things we listen to. They hold power, the power to light our hopes or hold us in place without us even knowing. *Hidden Hooks: How Stories Snare Our Minds and Move Our World* shows how stories have been used by kings, priests, poets, and rebels. Sometimes to control, sometimes to free. It moves through time and across lands, from Gilgamesh's epic to the Dreamtime songs of the Aboriginals, from the masked voices of Delphi to Sojourner Truth's calls for change. It looks closely at stories like the Ramayana and Star Wars, where the lines between good and evil twist and turn. Through voices like Socrates, Sappho, and Rumi, we are invited to question what we're told and to find the truths beneath the surface. This book asks us to pay attention, to notice the strings that pull, and to find the courage to break free. It opens the door to doubt, not as a weakness but a tool to see clearly. It encourages us to take the pen ourselves to tell our own stories that set us free. Death and Philosophy J.E. Malpas, Robert C. Solomon, 2002-06-01

*Death and Philosophy* considers these questions with different perspectives, varying from the existentialist deriving from Camus, Heidegger, or Sartre to the English-speaking analytic tradition of Bernard Williams or Thomas Nagel to non-Western approaches such as are exemplified in the Tibetan Book of the Dead and in Daoist thought to perspectives influenced by Lucretius, Epicurus, and Nietzsche. *Death and Philosophy* will be of great interest to philosophers or those studying religion and theology, but its clarity and scope ensure it will be accessible to anyone who has considered what it means to be mortal.

*Live, Listen, Tell* Geoff New, 2017-03-03 *Live Listen Tell: The Art of Preaching* will guide readers through the process of sermon preparation and hearing God through the Scriptures. By drawing on life and Scripture, especially the road to Emmaus narrative in Luke 24, the author illustrates that preachers are living a story, listening to a story, and telling a story. This book encourages you to pay particular attention through prayer to the story to which you are listening. Geoff New shows how to prayerfully listen to the Scriptures in preaching preparation and how the fruit of this leads to a sermon and impacts the way we live, listen, and tell. **On Being the Church in the United States** Barry Penn Hollar, 1994 Ecclesiology and political theory intersect in the rich debate among Christian social ethicists in the United States concerning the public responsibility of the church in a democratic capitalist culture. understanding of the church world relationship It also provides a broad account of the liberal philosophical tradition s justification for democratic capitalism Chapters on Reinhold Niebuhr Rosemary Radford Ruether Stanley Hauerwas and Roman Catholic Social Teaching analyze and assess the intersection between their ecclesiologies and their appraisals of liberalism *Just Discipleship* Michael Jemison Rhodes, Michael J.
