## Ultimo Minuto:

*Identity Mediations in Latin American Cinema and Beyond* Cecilia Nuria Gil Mariño, Laura Miranda, 2019-09-12 The appearance of sound film boosted entertainment circuits around the world drawing cultural cartographies that forged images of spaces nations and regions By the late 1920s and early 30s film played a key role in the configuration of national and regional cultural identities in incipient mass markets Over the course of the twentieth and early twenty first centuries this transmedia logic not only went unthreatened but also intensified with the arrival of new media and the development of new technologies In this respect this book strikes a dialogue between analyses that reflect the flows and transits of music films and artists mainly in the Ibero American space although it also features essays on Soviet and Asian cinema with a view to exploring the processes of configuration of cultural identities As such this work views national borders as flexible spaces that permit an exploration of the appearance of transversal relations that are part of broader networks of circulation as well as economic social and political models beyond the domestic sphere

*A Cultural Journey through the English Lexicon* Roberto Facchinetti, 2012-01-17 This book is a metaphorical journey through the English lexicon viewed as a vehicle and a mirror of cultural identity From the translatability of phrases and metaphors to genre specific terms from English as a Lingua Franca to English language teaching the studies collected here testify to the fact that in English and overall in language word contextualization or lack of contextualization impinges on linguistic utterances and leads to differing interpretations of the textual message The book may be of interest to a wide range of scholars and students who are concerned with the study of the English lexicon bearing in mind that this lexicon provides the bricks of any language and language in turn needs the cornerstone of Culture to stand firmly and thrive
