## **Zoro's Field:**

**Zoro's Field** Thomas Rain Crowe, 2011-07-01 After a long absence from his native southern Appalachians Thomas Rain Crowe returned to live alone deep in the North Carolina woods This is Crowe's chronicle of that time when for four years he survived by his own hand without electricity plumbing modern day transportation or regular income It is a Walden for today paced to nature's rhythms and cycles and filled with a wisdom one gains only through the pursuit of a consciously simple spiritual environmentally responsible life Crowe made his home in a small cabin he had helped to build years before at a restless age when he could not have imagined that the place would one day call him back The cabin sat on what was once the farm of an old mountain man named Zoro Guice As we absorb Crowe's sharp observations on southern Appalachian natural history we also come to know Zoro and the other singular folk who showed Crowe the mountain ways that would see him through those four years Crowe writes of many things digging a root cellar being a good listener gathering wood living in the moment tending a mountain garden He explores profound questions on wilderness self sufficiency urban growth and ecological overload Yet we are never burdened by their weight but rather enriched by his thoughtfulness and delighted by his storytelling

**Poems from Zoro's Field** Thomas Rain Crowe, 2005 **Appalachian Journal**, 2005 A regional studies review **Appalachian Heritage**, 2005 Bartram's Living Legacy Dorinda G. Dallmeyer, 2010 More than two centuries have passed since the publication of William Bartram's *Travels in 1791* That his book remains in print would be notable enough but Bartram's work was visionary It fostered the development of a truly American strain of natural history His writings transcended scientific boundaries to deeply influence Coleridge Wordsworth and other Romantic poets And his text continues to ignite the imaginations of Southerners who love nature Bartram's ability to marry science with poetry ensured *Travels* a worldwide audience for the last 200 years William Bartram was a cultural historian too carefully recording the way in which the Indians used the land along with the changes wrought by European settlers Being on the road with Bartram involves cliffhanger encounters with dreadful weather charismatic predators and even deadlier humans And throughout the book Bartram reveals a deep spiritual connection to nature as a manifestation of divine Creation Bartram's holism lays the foundation for major themes of modern nature writing as well as environmental philosophy In this unique anthology for the first time *Travels* is joined with essays acknowledging the debt Southern nature writers owe the man called the South's Thoreau We hope this book will introduce a new generation of environmentally minded Southerners to Bartram's timeless work not only standing on its own but also interpreted through passionate personal essays by some of the region's finest nature writers Rather than wallowing in nostalgia for the long gone world Bartram describes this anthology provides us with a starting point for reconstructing and reclaiming the natural heritage of the South The Georgia Review, 2005 *The British National Bibliography* Arthur James Wells, 2006 *Left Curve*, 2007 The North Carolina Historical Review, 2006 *The Rural Educator*, 2005 Carolina Comments, 2006 **Radiogenesis** Thomas Rain Crowe, 2007 **America Zen**
