Blake C. Scott, 2022-11-15 *Unpacked* offers a critical novel perspective on the Caribbean's now taken-for-granted desirability as a tourist's paradise. Dreams of a tropical vacation have become a quintessential aspect of the modern Caribbean as millions of tourists travel to the region and spend extravagantly to pursue vacation fantasies. At the beginning of the twentieth century, however, travelers from North America and Europe thought of the Caribbean as diseased, dangerous, and according to many observers, the white man's graveyard. How then did a trip to the Caribbean become a supposedly fun and safe experience? *Unpacked* examines the historical roots of the region's tourism industry by following a well-traveled sea route linking the US East Coast with the island of Cuba and the Isthmus of Panama. Blake C. Scott describes how the cultural and material history of US imperialism became the heart of modern Caribbean tourism. In addition, he explores how advances in tropical medicine, perceptions of the tropical environment, and development of infrastructure and transportation networks opened a new playground for visitors.

Study Abroad and the Second Language Acquisition of Sociolinguistic Variation in Spanish Sara L. Zahler, Avizia Y. Long, Bret Linford, 2023-06-06 This volume offers a comprehensive snapshot of the breadth of empirical research currently being conducted on the second language acquisition of sociolinguistic variation in Spanish during study abroad. Research on this topic spans diverse methodological approaches, types of programs, linguistic structures, and learner characteristics, which is reflected in the contributions in this volume. This diversity of approaches illustrates how the second language development of sociolinguistic variation during study abroad depends crucially on a number of linguistic and extralinguistic factors and can be measured in distinct ways. Thus, this collection will be an indispensable resource to researchers and students of second language acquisition, sociolinguistics, applied linguistics, education, and other fields interested in language development during study abroad.
