Studies In Problem Texts J. Sidlow Baxter, 2017-01-10 Dr Baxter investigates analyzes and interprets some of the more obscure passages of Scripture shedding clear light upon much that heretofore has been bewildering He himself has often expressed his indebtedness to the problem texts of the Bible because of the many hours of valuable searching and study that they have provoked in his life and for the manner in which their study has disciplined himself and others in patience and painstaking investigation

Research Hyeon Woo Shin, 2004 The criteria for originality priority and authenticity used in textual criticism the study of the Synoptic Problem and historical Jesus research share one basic similarity they were all designed to distinguish a prior tradition from its later developments All these areas of research investigate the transmission process which involves both preservation and alteration The sets of criteria used in one area are thus analogous to the sets of criteria used in the other two areas This assumption can be confirmed by observing numerous instances of such similarity in these sets of criteria On the basis of this assumption many other instances of similarity may be newly attained by adapting the set of criteria used in

one area for use in the other two areas The sets of criteria for these three areas of research can be further generalized into a mother set of criteria which will provide us with a degree of methodological unification in these disciplines **Research**
