Unmanned Space Missions Britannica Educational Publishing, 2009-10-01 Satellites and robotic spacecraft have long travelled where humankind cannot or dare not go By delving into the pages of this book readers will learn about the technology people and

organizations that have made fruitful unmanned space missions a reality **Faster, Better, Cheaper** Howard E. McCurdy,2003-04-01 This excellent summary of an important part of NASA s history is recommended for all readers Choice In Faster Better Cheaper Low Cost Innovation in the U S Space Program Howard E McCurdy examines NASA s recent efforts to save money while improving mission frequency and performance McCurdy details sixteen missions undertaken as the twentieth century drew to a close including an orbit of the moon deployment of three space telescopes four Earth orbiting satellites two rendezvous with comets and asteroids and a test of an ion propulsion engine which cost less than the sum traditionally spent on a single conventionally planned planetary mission He shows how these missions employed smaller spacecraft and cheaper technology to undertake less complex and more specific tasks in outer space While the technological innovation and space exploration approach that McCurdy describes is still controversial the historical perspective on its disappointments and triumphs points to ways of developing faster better and cheaper as a management manifesto Readers interested in either the management or economics of complex organizations will find a wealth of material in this well written exposition Fans of space travel like the author himself will also enjoy the behind the scenes look at NASA s operation Enterprise and Society **Shattered Dreams** Colin Burgess,2019-05-01 Shattered Dreams delves into the personal stories and recollections of several men and women who were in line to fly a specific or future space mission but lost that opportunity due to personal reasons mission cancellations or even tragedies While some of the subjects are familiar names in spaceflight history the accounts of others are told here for the first time Colin Burgess features spaceflight candidates from the United States Russia Indonesia Australia and Great Britain Shattered Dreams brings to new life such episodes and upheavals in spaceflight history as the saga of the three Apollo missions that were cancelled due to budgetary constraints and never flew NASA astronaut Patricia Hilliard Robertson who died of burn injuries after her airplane crashed before she had a chance to fly into space and a female cosmonaut who might have become the first journalist to fly in space Another NASA astronaut was preparing to fly an Apollo mission before he was diagnosed with a disqualifying illness There is also the amazing story of the pilot who could have bailed out of his damaged aircraft but held off while heroically avoiding a populated area and later applied to NASA to fulfill his cherished dream of becoming an astronaut despite having lost both legs in the accident These are the incredibly human stories of competitive realists fired with an unquenchable passion Their accounts reveal in their own words and those of others close to them how their shared ambition would go awry through personal accidents illness the Challenger disaster death or other circumstances **Missions** Howard Benjamin Grose,1924 **Western Aerospace** ,1959 **Human Health and Performance Risks of Space Exploration Missions** Jancy C. McPhee,John B. Charles,United States. National Aeronautics and Space Administration,2009 Incredible Stories from Space Nancy Atkinson,2016-12-20 Experience the Amazing Unmanned Journeys to Explore the Universe In Incredible Stories from Space veteran space journalist Nancy Atkinson shares compelling insights from over 35 NASA scientists and engineers

taking readers behind the scenes of the unmanned missions that are transforming our understanding of the solar system and beyond Weaving together one on one interviews along with the extraordinary sagas of the spacecraft themselves this book chronicles the struggles and triumphs of nine current space missions and captures the true spirit of exploration and discovery Full color images throughout reveal scientific discoveries and the stunning breathtaking views of our universe sent back to Earth by our robotic emissaries to the cosmos Travel along with the first mission to Pluto Explore Mars alongside the Curiosity Rover Join the unprecedented hunt for extrasolar planets Unlock the mysteries of the cosmos with the iconic Hubble Space Telescope Discover the latest findings in our solar system See the future of space exploration with a preview of upcoming missions
